Microeconomics - *KRSN ECO1010* CORE OUTCOMES

Course Effective Date: Fall 2012
Outcome Approval Date: Fall 2018
Next Outcome Review Date: Fall 2023

Upon completion of this course, students will be able to:

1. Demonstrate the economic way of thinking including scarcity, opportunity cost, production possibility, and marginal analysis
2. Utilize the supply and demand model, including elasticity, to analyze market outcomes
3. Determine the functional relationships between production and costs
4. Compare and contrast the operation of different market structures
5. Identify causes and explain effects of market failures
