

Postsecondary Technical Education Authority

AGENDA

Kansas Board of Regents

1000 SW Jackson, Suite 520, Topeka, KS

10:00 AM – January 28, 2021

I. CALL TO ORDER

A. EXECUTIVE SESSION

Postsecondary Technical Education Authority – Attorney-Client Relationship

B. Approve Previous Minutes (December 10, 2020)

Chair Frederick

II. REPORTS

A. Introductions

Chair Frederick

B. Chair’s Report

Chair Frederick

C. Member Liaison

TEA Members

D. Vice President for Workforce Development Report

Vice President Smathers

E. Report from Kansas the Community Colleges

President Rittle

F. Report from the Technical Colleges

President Genandt

III. OTHER MATTERS

A. Excel in CTE Fees

Director Henry

- Butler Community College
- Cloud County Community College
- Flint Hills Technical College
- Hutchinson Community College
- Independence Community College
- Kansas City Kansas Community College
- Labette Community College
- Neosho Community College
- North Central Kansas Technical College
- Northwest Kansas Technical College
- Salina Area Technical College
- Seward County Community College

B. Funding Distributions

Vice President Frisbie

C. Legislative Update

Director Casey

D. Micro-Internships Program

Sr. Project Director Peterson

E. Carl Perkins Update

Sr. Director Beene

IV. COLLEGE PRESENTATIONS

A. Flint Hills Technical College

President Hollenbeck

B. Garden City Community College

President Ruda

V. NEXT MEETING REMINDER (Thursday, February 25, 2021)

Chair Frederick

VI. ADJOURNMENT

**PRELIMINARY MINUTES
KANSAS POSTSECONDARY
TECHNICAL EDUCATION AUTHORITY
MEETING**

A virtual meeting of the Kansas Postsecondary Technical Education Authority (TEA) was held via ZOOM on December 10, 2020.

Members Present

Ray Frederick Jr., Chair
Rita Johnson
Mike Johnson
Debra Mikulka
Mike Beene
Stacy Smith

Ryan Wright
Mark Hess
Eddie Estes
Jason Cox
Tiffany Anderson

Others Present

Jim Genandt, Manhattan Area Technical College
Dennis Rittle, Cowley County Community College
Heather Morgan, KACCT
Coffeyville Community College
WSU Tech
Colby Community College
Johnson County Community College
Barton Community College
Highland Community College

Pratt Community College
Ft. Scott Community College
Washburn Institute of Technology
Cowley County Community College
Hutchinson Community College
Cloud County Community College
Highland Community College
Garden City Community College
Kansas City Kansas Community College

Kansas Board of Regents Staff Present

Scott Smathers
Charmine Chambers
Chris Lemon
Sue Grosdidier
Vera Brown
Erin Guardiola
Steve Funk
Susan Henry

Connie Beene
April Henry
Lisa Beck
Tim Peterson
Tobias Wood
Elaine Frisbie
Matt Casey

CALL TO ORDER

The meeting was called to order by Chair Frederick at 10:00 A.M. Chair Frederick provided members with virtual meeting guidelines for this meeting. He then asked members if there were any changes or additions to the Agenda. Chair Frederick asked to add to the Agenda under “E. Other Matters” an item for discussion to authorize the Budget and Finance Committee during their January 7, 2021 meeting to review and consider approving for the TEA the Excel in CTE and AOK proviso funding allocations.

Motion: Chair Frederick moved to add to the Agenda under “E. Other Matters” an item for discussion to authorize the Budget and Finance Committee during their January 7, 2021 meeting to review and consider approving for the TEA the Excel in CTE and AOK proviso funding allocations. Following a second by Member Estes, the motion carried by roll call vote.

Approval of Previous Minutes

Motion: Member Beene moved to approve the minutes of November 12, 2020. Following a second by Member Anderson, the motion carried.

REPORTS

Introductions

None.

Chair's Report

Chair Frederick reported that due to the pandemic, he has not had an opportunity to travel, but he has been in communication with institutions.

Member Liaison Reports

Chair Frederick invited TEA member activity reports.

Member Estes reported that during the November Trustees' meeting, Dodge City Community College voted to eliminate the cost of books to students for the 2021-2022 school year.

Member Anderson reported that she participated in the Johnson County Community College Virtual Civic Engagement Conference for students and applauded the institution for keeping young people engaged. She reported that the new pathway for CNA students is now open at TCALC. Chair Frederick added he would like to recognize Member Anderson for delivering holiday cheer to first responders and students in Topeka.

Vice President for Workforce Development Report

Chair Frederick called on Vice President Smathers to provide members with a Workforce Development report. Vice President Smathers reported that staff continues to work remotely. He reminded members of the new security measures at the KBOR office, requiring badges to enter the office. He reminded members that the KBOR Finance Department will be handling TEA member travel expenses, and they will be reaching out to members prior to the January 28, 2021 meeting with information on new procedures. He reported that he met with community college presidents. He reported that KBOR staff continues with work on the Pillar III efforts with the universities and specifically the Pillar II business contact efforts. He added that staff has participated in multiple national Perkins and adult education meetings, continues to support various committees, and continues to make great progress on the Lumina military grant with university/two-year sector partnerships. He reported that he and Director Henry participated in the KSDE work-based learning session and participated in the KANSASWORKS State Board meeting and strategic planning session led by Member Beene. Staff has been exploring internship opportunities, with more information coming to members in the next two months regarding an opportunity to launch micro-internships statewide. Staff continues to work on program alignment, has participated in MOA training, and is working on the renewal of the Engineering grant. He reported that he has attended a multi-state meeting with US Dept of Education and was interviewed by Opportunity America for the National Association of Community College Entrepreneurship Group, discussing program alignment in Kansas. Vice President Smathers ended his report with a request to Vice President Frisbie to provide members with information on the new COVID funding available to institutions. Vice President Frisbie provided members with a brief overview of the State's Cares Act funding. In August, \$9.4 million was awarded to the two-year sectors and reports on spending are being submitted by institutions. The State's Recovery office will redeploy unspent funds for a second round of payment for COVID Relief Fund eligible expenses, and the funds must be committed for spending by the institutions by December 30, 2020. The second round of funding is approximately an additional \$2.5 million for the community colleges, and the amount for the technical colleges is being determined.

Report from the Community Colleges

Chair Frederick called upon Cowley County Community College President Dennis Rittle to provide members with a report from the community colleges.

Report from the Technical Colleges

Chair Frederick called upon Manhattan Area Technical College President Jim Genandt to provide members with a report from the technical colleges.

CONSENT AGENDA

Technical Program and Curriculum Committee

New Program Proposals

Garden City Community College: Early Childhood Education (19.0709)

Excel in CTE Fees

Garden City Community College: Early Childhood Education (19.0709)

Update AO-K Approved Credentials and Pathways List

Chair Frederick called for a motion to approve the Consent Agenda items from the Technical Program and Curriculum Committee.

Motion: Member Beene moved to approve the Consent Agenda items. Following a second by Member Mikulka, the motion carried by roll call vote.

OTHER MATTERS

Distribution of Kansas State Safety Funds

Commercial Driver Training Fund (*K.S.A. 8-272*)

Motorcycle Safety Fund (*K.S.A. 8-267*)

Chair Frederick called on Associate Director Chambers to present the distribution of Kansas State Safety funds. Associate Director Chambers provided members with the FY21 Commercial Driver Training Participating Institutions and Allocations and the Motorcycle Safety Participating Institutions and Allocations.

Commercial Driver Training Participating Institutions and Allocations

Institution	# of students	Amount paid per student	Allocation per Institution
Seward County Community College	31	\$600	\$18,600
Salina Area Technical College	16	\$600	\$9,600
Washburn University Institute of Technology	12	\$600	\$7,200
TOTAL	59		\$35,400

Motorcycle Safety Participating Institutions and Allocations

Institution	Headcount	Allocation per Institution
Butler Community College	15	\$1,950
Cowley Community College	17	\$2,210
Hutchinson Community College	131	\$17,030
Johnson County Community College	219	\$28,470
Kansas City Kansas Community College	122	\$15,860
TOTAL	504	\$65,520

Motion: Member M. Johnson moved to approve the distribution of the Kansas State Safety funds as presented. Following a second by Member Hess, the motion carried by roll call vote.

Excel in CTE Fees

Chair Frederick called on Director Henry to present the Excel in CTE fees. Director Henry explained that institutions were tasked with going into each course and program and reporting the fees that are charged to high school students. Staff then approved or disapproved fees according to the criteria for allowable fees that was set by a special TEA subcommittee in 2019. Excel in CTE fees were submitted for approval from the following 14 institutions for review for approval by the TEA:

- Allen County Community College
- Barton Community College
- Coffeyville Community College
- Colby Community College
- Cowley Community College
- Dodge City Community College
- Fort Scott Community College
- Garden City Community College
- Highland Community College
- Johnson County Community College
- Manhattan Area Technical College
- Pratt Community College
- Washburn Institute of Technology
- Wichita State University Campus of Applied Sciences and Technology

Director Henry explained there were no significant changes in the fees from those approved last year, and the criteria for approval has not changed. KBOR Staff worked with each institution individually. Member Beene expressed his concern about tool charges and the disparity in the charges for OSHA 10 depending on the location in which a program is offered, specifically by Washburn Institute of Technology main campus and east campus. Member Smith expressed concern over the tools and fees of some pathways, specifically the costs of certifications. Member Mikulka expressed concern in the range of fees depending on the location that the program is offered. Member Anderson expressed concern about essentially the costs of staffing issues at the east campus of Washburn Institute of Technology that are being passed on to the students. Member Mikulka added that a standardized range of program costs would be needed in order to specifically address and single out individual fees to approve/disapprove. Member Anderson and Member Beene agreed but restated their concerns in the disparity of the amount of fees dependent on course location. Chair Frederick expressed that the TEA needs to focus on whether the fees meet the set criteria, noting there may be some concerns on the difference in specific fees although they may fall within the criteria. He added that he hoped that these concerns expressed by TEA members today are being heard by the institutions for remedy.

Motion: Member M. Johnson moved to approve the Excel in CTE fees as presented. Following a second by Member Mikulka, the motion carried by roll call vote.

Legislative Update

Chair Frederick called on Director Casey to provide members with a legislative update. Director Casey reported to members that leadership elections were held last week with the Kansas House of Representatives leadership remaining essentially the same and the Senate acquiring new leadership. He reported on non-budgetary items that were discussed including a Private Postsecondary bill, Engineering Act Extension, removing legislative barriers to affiliations and mergers of institutions, increased options for 529 savings plans allowing third party contributions, and discussion on concurrent enrollment and allowing school districts to use their funding to pay tuition for dually-enrolled students.

Excel in CTE Funding Discussion

Chair Frederick recognized Vice President Frisbie to lead discussion regarding Excel in CTE funding. Vice President Frisbie provided members with information regarding the preliminary first look at Excel in CTE funding projections for the fall of 2020 (FY 2021) from the cost model. She also provided results from the fall of 2019 (FY 2020) for comparison purposes. She explained that based on the Governor's budget allotment, the Board of Regents has \$29.15 M available this year for Excel in CTE. If the colleges were successful in replicating fall enrollments in the coming spring semester, the appropriation would be \$1.8 M short this year. To the extent that spring is lower than fall, the deficit will diminish. In the budget appeal to the Governor, the Board of Regents highlighted the potential shortfall and explained that a budget amendment may be requested in the spring when spring enrollment data has been collected. For the purpose of making the January 2021 allocations to the colleges for the Excel in CTE program, data specific to each college will be provided, which will account for the amounts in the prior year that were under- or over-paid. Those prior year reconciliation adjustments will net to zero for all of the colleges and have not yet been calculated. Vice President Frisbie added that due to the pandemic, the spring 2020 special collection of enrollment data was estimated for institutions, and fall enrollments were down about 15%.

Budget and Finance Committee authorization to consider approving for the TEA the Excel in CTE and AOK proviso funding allocations

Chair Frederick called on Vice President Smathers to lead the discussion regarding this added Agenda item, to authorize the Budget and Finance Committee to consider approving for the TEA the Excel in CTE and AOK proviso funding allocations. Vice President Smathers explained that due to the timing of the January 28, 2021 TEA meeting relative to the January 20, 2021 Kansas Board of Regents meeting, as in years past, it is suggested that the Budget and Finance Committee be authorized to review the final numbers and make a recommendation to KBOR to proceed.

Motion: Member M. Johnson moved to approve the authorization of the Budget and Finance Committee to consider approving for the TEA the Excel in CTE and AOK proviso funding allocations. Following a second by Member Estes, the motion carried by roll call vote.

NEXT MEETING REMINDER

Chair Frederick reminded members that the next TEA meeting will be held at the KBOR Offices in Topeka, Kansas on January 28, 2021 at 10:00 A.M.

ADJOURNMENT

With no further business, Chair Frederick adjourned the meeting at 11:39 A.M.

Respectfully submitted by:
Susan Henry, Executive Assistant

Excel in Career Technical Education (CTE) Fees

Summary

Per statute (K.S.A. 72-3810), the Kansas Board of Regents shall establish general guidelines for tuition and fee schedules in career technical education courses and programs. The Excel in CTE tuition and fee schedule of every technical education program shall be subject to annual approval.

Background

K.S.A 72-3810 states:

“All tuition and fees charged for career technical education by any board shall be in such amounts as are authorized by rules and regulations adopted by the state board which shall establish general guidelines for tuition and fee schedules in career technical education courses and programs. The particular tuition and fee schedule of every career technical education program shall be subject to annual approval of the state board. A current complete schedule of tuition and fees for each career technical education course and program of each board as approved by the state board shall be maintained on file in the office of the state board and shall be open for public inspection at any reasonable time.”

"Fees means those charges assessed against a student by a community college, technical college or the institute of technology for student services, such as health clinics, athletic activities and technology services, or for books, supplies or other materials necessary for a particular course or program, the expense of which is not covered by tuition.”

"Tuition means those charges assessed against a student by a community college, technical college or the institute of technology on a per credit hour, per course or per term basis, and that are charged to cover the general expense of providing instructional services.”

As per the Postsecondary Technical Education Authority’s (TEA) request, on Thursday, December 19, 2019, representatives from community colleges, technical colleges, and Board staff met to set guidelines for fees associated with Excel in CTE courses and programs. As a result of this meeting, agreed upon allowable fees include items/services students take with them and industry-specific fees required for entrance/acceptance into the program. The TEA approved this methodology at their February 27, 2020 meeting.

Allowable fees include:

- Uniforms
- Personal protective equipment
- Background checks
- Fingerprints
- Drug tests
- E-subscriptions/E-books
- Textbooks
- Certification tests
- Liability insurance (example: student malpractice)
- Graduation fees (if applicable)
- Transcript fees (if applicable)

Unallowable fees include:

- Student fees (general)
- Technology fees
- Health fees
- Consumables
- Any other fee not on the allowable list

Non-tiered courses - per statute (K.S.A. 71-1802) a technical program is defined as a “program of study comprised of a sequence of tiered technical courses and non-tiered courses, which is identified by the state board as a technical program for funding purposes.” For this reason, students enrolled in technical programs may take non-tiered courses and are responsible for all associated tuition and fees.

Butler Community College
AY22 Excel in CTE Fees

Block Fees are courses that students choose from to complete the program and are not included in the program total cost.

**Approve Distribution of FY 2021 State Funds for
Technical Education (Excel in CTE, AO-K Proviso)
and Reconcile FY 2020 GED Accelerator Payments**

Summary and Staff Recommendation

The Excel in Career Technical Education Program offers state-financed college tuition for high school students in postsecondary technical education courses resulting in an industry-recognized credential in high demand occupations. For FY 2021, the Board of Regents has available \$29,154,345 for high school students' postsecondary tiered technical course tuition - Excel in Career Technical Education (CTE), and up to \$500,000 of that \$29.2 million can be spent for the Accelerating Opportunity: Kansas (AOK) program which serves adults without a high school diploma or GED who are enrolled in tiered technical courses in approved pathways. Funding for the tuition has been distributed twice a year, typically based on live student enrollment data. The proposed distribution amounts presented below were calculated using FY 2021 enrollment data submitted and certified by the colleges.

The Board of Regents also has \$125,000 available in FY 2021 for the Postsecondary Education Performance-Based Incentives Fund (known as the GED Accelerator initiative). This fund provides incentives to eligible institutions for adults seeking and earning a GED/high school equivalency diploma and/or an identified industry credential while enrolled in an eligible postsecondary technical education program. For this program, amounts shown are for the purpose of reconciling the prior year (FY 2020) amounts paid to align them with actual enrollments, and an additional \$97,991 is available for these prior year commitments. FY 2021 distributions will be made in June 2021.

The distributions are contingent upon the Board's assessment of each institution's performance pursuant to the performance agreement process. Staff recommends approval of the distributions which are calculated from data submitted and certified by the institutions and are shown below.

Background

K.S.A. 72-4489 was enacted by the 2012 Legislature to establish the Career Technical Education Incentive Program. The program offers state-financed college tuition for high school students in postsecondary technical education courses resulting in an industry-recognized credential in high demand occupations. As the program has been promoted and enrollment has grown, its success has not always been matched with corresponding appropriations from the State General Fund.

Total Costs	\$ 24,459,686	\$ 27,479,481	\$ 32,147,506	\$ 35,428,068	\$ -

State aid for the colleges is calculated using the postsecondary education cost model, according to KSA 2020 Supp. 71-1801, et seq. The additional costs to deliver technical programs (supplies, materials and specialized equipment) are recognized within that cost model. The state funding is intended to finance the entirety of the

institutions' costs for delivery of instruction. Colleges are prohibited from charging the students tuition. The Postsecondary Technical Education Authority reviews students' fees charged for the programs.

Fiscal Year 2020 Reconciliation

Amounts identified in the tables below reflect Fall 2020 (FY 2021) enrollments and reconciliation of FY 2020 actual enrollments, as reported and certified by the institutions for the Excel in CTE and Accelerating Opportunity: Kansas programs. In some cases, as institutions reported their Academic Year data for FY 2020, the amounts funded last year now require adjustment, and in one case reconciliation results in an amount identified to be repaid to the Board Office, shown as a net negative amount. No payment will be required at this time, rather the prior year's adjustment amount is planned to be deducted from the Spring 2021 distribution. With the COVID-19 pandemic declared in March 2020, and the accompanying stay at home orders, there was a sudden and widespread disruption of on-campus activities. From concerns voiced by the colleges, the Office of the Board of Regents agreed to make non-mandatory the spring enrollment data collection that would have normally formed the basis of the state grant distributions for Spring 2020, although the collection was made available to colleges to upload data. The TEA and the Board of Regents based its Spring 2020 distributions on a trend line analysis from prior years.

Data Submission Error

In September 2020, Allen County Community College (ACCC) submitted its Academic Year 2020 data collection in accordance with the published schedule. Before the AY 2020 data collection was certified, Board staff on two separate occasions pointed out anomalies in high school student funding flags and high school students not funded, but ACCC confirmed their view that the data were correct. On September 16, 2020, President Masterson certified the data, per the standard certification process used when the institutions submit their data. This certification states:

“As President, or the duly appointed representative, I hereby certify to the completeness and accuracy of all the data submitted by my institution to the Kansas Board of Regents in the KHEDS data collection and I understand that submission of incomplete or inaccurate data could detrimentally impact my institution.”

Once the data were certified and reconciled to distributions made in Fiscal Year 2020, an issue paper for making January distributions was published and ACCC then realized the College's Excel in CTE FY 2020 distribution was calculated to be overfunded by \$486,014. ACCC subsequently researched the issue and realized their high school data contained errors. Specifically, ACCC had failed to flag a sizable number of high school students enrolled in spring-only courses.

President Masterson submitted a request to the Board of Regents to grant ACCC an exception to the process and be allowed to correct their data errors. It appears this remedy was sought because it would reduce the amount of funding ACCC is required to repay as a result of their error. This would, however, impact the distributions for other institutions. If a correction were made for ACCC, it would increase the total AY 2020 reconciliation amount over the prior year distributions of \$729,314. Since past year's funds must net to zero, this amount would have to be adjusted out of other colleges' distributions.

In accordance with the Board of Regents' data governance policy, the Data Governance Committee discussed the request and options to resolve the data error. After careful consideration, the Committee recommended that the data collection not be altered after the submission and certification by the institution and agency leadership concurred with that recommendation. This recommendation is not made lightly, and the impact on ACCC is disheartening. However, this recommendation best balances the economic impact on ACCC, the strain the COVID-19 Pandemic has caused for all institutions, the logistics of attempting to reopen the data at this time, the impact on other institutions, and legal requirements. Logistically, reopening the certified data is difficult to

accomplish. It would require significant Board staff time and monetary resources. An emphasis is placed on ensuring that the certified data is correct because Board staff need to rely on certified data to make funding calculations, comply with federal reporting requirements and present timely information to the Governor and Legislature.

The Board and Technical Education Authority are also charged with coordinating a myriad of related activities for the nineteen community colleges, six technical colleges and Washburn Institute of Technology, including data collection, Excel in CTE funding, and Tiered Technical State Aid. ACCC recognizes that its request would not fully correct the data errors for AY 2020 and is only a partial remedy. Granting this request to reopen the certified data opens the door for other institutions to make similar requests without any clear guideposts for analyzing those requests. This would create an administrative burden and risk that Board action will be viewed as arbitrary or inconsistent across the institutions.

The amounts shown for distribution reflect this recommendation and are contingent upon the Board’s assessment of each institution’s performance pursuant to the performance agreement process.

GED Accelerator

The Postsecondary Education Performance-Based Incentives Fund (known as the GED Accelerator initiative) provides incentives to eligible institutions—community colleges, technical colleges and Washburn University Institute of Technology—for adults seeking and earning a GED/high school equivalency diploma and/or an identified industry credential while enrolled in an eligible postsecondary technical education program. Eligible institutions can receive \$170 for each adult enrolled in a postsecondary technical program while pursuing a GED/high school equivalency diploma (\$150 of which must be used for the GED/high school equivalency tests), \$500 for each adult earning a GED/high school equivalency diploma, and \$1,000 for each adult earning an identified industry credential while enrolled in an eligible postsecondary technical education program. Amounts shown in the prior year reconciliation column are recommended to be distributed at this time.

GED Accelerator

Institution	(For Reference) FY 2020 Distributions	Prior Year Reconciliation
Allen Community College	\$ --	\$ --

Staff Recommendation

Staff recommends approval of the distributions as identified above, after taking into consideration the impact of the Board's assessment of each institution's performance pursuant to the performance agreement process for FY 2021.

Legislative Update

Summary

The Technical Education Authority will receive a brief legislative update.

01/28/2021

Intent

Director Casey will provide the TEA with a legislative update.

Kansas Micro-Internships Pilot Program

Summary

A new pilot micro-internships program available to all students enrolled in any Kansas public college or university will be launched in early February of 2021. Micro-internships are short-term, paid, professional projects in many career fields that can be completed remotely year-round. The program will support the Kansas Board of Regents new “Building a Future” strategic plan. A grant from the DeBruce Foundation in Kansas City will provide matching micro-grants for Kansas employers who participate in the program.

1/28/21

Program Goal

The goal of the Kansas Micro-Internships Program is to support the Kansas Board of Regents’ “Building a Future” strategic plan and the Kansas Department of Commerce’s aim to “connect businesses, job seekers, educational institutions and training providers to ensure the state’s workforce is equipped to meet industry needs and to help create economic success for Kansas residents and businesses.”

Overview

More than 165,000 students attend the Kansas public colleges and universities that provide hundreds of training and education programs in a myriad of technical and professional subjects. The Kansas Micro-Internships Program will enable eligible students from all of these institutions to demonstrate their skills, explore career paths, and build their networks while helping large and small employers build a better future across the state.

Micro-internships are short-term, paid, professional assignments in sales, marketing, finance, human resources, technology, and many other areas. These projects can be completed remotely year-round and typically range from 5 to 40 hours of work. The projects are usually due within a month after kick-off and would be preceded by completing the Agile Work Profiler developed by the DeBruce Foundation in Kansas City.

The Kansas Micro-Internships will be facilitated via the Parker Dewey online platform making it easy for employers, postsecondary institutions, and college students to participate without administrative barriers or burdens. Creating an account takes less than five minutes.

Program Operation

Parker Dewey provides its micro-internships online platform to 400 colleges and universities, 3,400 employers, and thousands of students across the country at no cost to the participating institutions. The Kansas Micro-Internship program will be somewhat similar to the partnership that the Associated Colleges of Illinois (ACI) has established with Parker Dewey that extends the online platform to 26 private universities that collectively enroll 71,000 students.

The participating students and employers create an account via landing pages developed by the company through which the students create a profile and apply for the micro-internship projects submitted by the participating employers. The employer sets a project fee that is paid to Parker Dewey, which pays ninety percent of the fee to the student intern. Parker Dewey collects and distributes the project fees and payments, provides reports that list the registered students, the number of project applications submitted, and the number of paid projects. The company also provides other useful resources such as project templates.

Program Promotion

The pilot Kansas program will be promoted by the Kansas Board of Regents to students at the public postsecondary educational institutions via their career services and alumni offices, the [System Council of Chief Academic Officers](#), the [Technical Education Authority](#), and the [Kansas Association of Colleges and Employers](#). The Board office will also promote the program to the members of the Kansas State Council of the Society of Human Resources Management ([KS SHRM](#)), while the Kansas Department of Commerce will promote the Kansas program to employers via its [Workforce Services for Employers](#) initiatives.

Program Funding

Although the Kansas Micro-Internships Program does not require any funding to be established, Parker Dewey recommends that some small incentives be provided to increase employer participation. Hence, the DeBruce Foundation in Kansas City has awarded the Board a grant of \$17,855 to provide 50% matching micro-grants up to \$250 per project with a maximum of \$500 per employer.

Program Requirements and Benefits

A summary of the proposed Kansas Micro-Internship student and employer eligibility requirements and benefits are listed in the table below. Eligible Kansas employers include any companies, small businesses, and non-profit organizations. Student participation in the program is voluntary, and the award of academic credit for completion of one or more micro-projects is at the discretion of the institution in which the students are enrolled.

Student Eligibility Requirements	Employer Eligibility Requirements
<ul style="list-style-type: none">✓ Completed the free Agile Work Profiler✓ Enrolled in any of the Kansas public postsecondary educational institutions	<ul style="list-style-type: none">✓ Be a Kansas-based employer or employ a significant number of Kansas residents✓ Provide clear expectations for completing the micro-internship project✓ Select Kansas eligible micro-interns whose skills match the project requirements✓ Set the project fee equal to an average salary of \$15 per hour
Student Benefits	Employer Benefits
<ul style="list-style-type: none">✓ Access to many different employers✓ Projects are available year-round✓ Projects can be completed remotely✓ 90% of the project fee paid to the intern	<ul style="list-style-type: none">✓ Access to many different interns✓ Reduced recruitment/hiring costs✓ Increased workforce diversity✓ Project micro-grants up to \$250

Program Evaluation

The efficacy of the program will be assessed quarterly via a review of the number of participating interns and employers, the number of project applications and completed projects, the number of post-internship jobs offered and accepted, and a survey of all the participating interns and employers.

Perkins V Postsecondary Update

Summary

The Strengthening Career and Technical Education for the 21st Century Act (Perkins V) reauthorized the Carl D. Perkins Career and Technical Education Act of 2006 (Perkins IV). An update will be provided on the initial data collection under the new legislation.

1/28/2021

Background

On July 31, 2018, President Trump signed into law the Strengthening Career and Technical Education for the 21st Century Act (Perkins V). It was approved unanimously by both chambers of Congress, reflecting broad bipartisan support for career and technical education (CTE) programs.

During the last two years, the Kansas Perkins V State team has worked to implement the new legislation, which culminated with a new State Plan, encompassing program years 2020 – 2023.

The initial data collection involving CTE enrollments has been completed with performance data added to the reporting cycle for December 2021. A review and breakdown of the postsecondary CTE enrollments will be provided.

Information only.

PERKINS V POSTSECONDARY UPDATE

(7/1/19 – 6/30/20)
