

CONCURRENT ENROLLMENT DUAL ENROLLMENT EXCEL IN CTE ENROLLMENT REPORT

MAY 2023

KANSAS HIGH SCHOOL STUDENT ENROLLMENTS IN PUBLIC POSTSECONDARY INSTITUTIONS

Kansas postsecondary institutions provide multiple opportunities for students to take college courses while in high school. Over 33,000 Kansas high school students enrolled in a concurrent, dual, or Excel in CTE course from a public postsecondary institution during the 2021-22 academic year.

Kansas Higher Education Statistics (KHEStats) is a web-based reporting tool for providing access to data about Kansas public postsecondary institutions and includes a specific tab for high school students. Students included in the reports relative to high school enrollment fall into three categories explained in the following paragraphs.

High school teachers teach concurrent enrollment courses during the regular high school day within a partnership/agreement between an eligible postsecondary institution and a school district. Data collections on these students are labeled as **Concurrent Enrollment Partnership (CEP)** students.

High school students may take courses directly from an institution where faculty from the institution teach the course online, at the campus, or at other locations. Data collections on these students are labeled as **Dual Enrolled**.

In 2012, the Excel in Career Technical Education Initiative (Excel in CTE) provided state-funded college tuition for approved technical courses for high school students. Data collections on these students are labeled as **Excel in CTE** students.
