

ELIGIBILITY GUIDELINES FOR THE KANSAS HERO'S SCHOLARSHIP - MILITARY

WHAT BENEFITS ARE AVAILABLE?

The Kansas Hero's Scholarship Act (K.S.A. 75-4364) establishes a waiver which provides an opportunity for eligible dependents and spouses of certain deceased or disabled military servicemembers to attend an eligible public Kansas postsecondary educational institution without payment of tuition and required fees. The student will be responsible for all other charges associated with the student's academic program. This waiver is only available for undergraduate coursework.

APPLICATION DEADLINES: Applicants are encouraged to submit their completed form and required documentation as soon as they know which eligible school they will be attending. This is not a competitive scholarship. All applicants who submit their completed form and required documentation by the deadline and are determined by the Kansas Board of Regents to be eligible for the scholarship will receive the scholarship beginning the semester for which they submitted their application on time.

You must submit all documentation listed under ONE of the following categories:

Category 1: The servicemember is entitled to compensation for a service-connected disability of at least 80% **as a result of** injuries or accidents **sustained in combat** after September 11, 2001.

1. A copy of the servicemember's DD214 and/or other separation documents; **AND**

2. Proof that the servicemember is a Kansas resident:

For deceased servicemember, death certificate should be sufficient in most cases, but additional documentation may be requested if residency at time of death cannot be clearly determined.

1. A copy of the servicemember's last Leave and Earnings statement or a copy of page 1 of the servicemember's most recent state income tax returns.
2. If the above documentation cannot be provided, please provide other residency documentation for review.

3. Proof of relationship between applicant and servicemember:

Spouse: A marriage certificate providing evidence of marriage between the applicant and the servicemember.

Dependent: A birth certificate or a certificate of adoption showing the relationship between the applicant and the servicemember. In the case of a stepparent who has not legally adopted the applicant, acceptable documentation would include a marriage certificate between the military personnel and the biological/adoptive parent, as well as a birth certificate or adoption certificate with the biological/adoptive parent's information listed. In the case of dependents who are neither children nor stepchildren of the servicemember, please contact us for guidance on acceptable documentation.

DEFINITIONS (in alphabetical order):

Combat: Active duty service in a theater of combat operations; have received imminent danger or hostile fire pay or have received a combat service medal.

Dependent: Includes birth child, adopted child, stepchild, or any other child who is dependent in whole or in part to such individual by marriage or consanguinity.

Injured or disabled: An eligible injured or disabled individual has been rendered incapable of performing duties of the following:

- The position being performed at the time the injury or disability was sustained; and
- any position that is at or above the pay level of the position the person was in at the time the injury or disability was sustained, if the person is a paid employee.

For the purposes of this definition, an injury or disability is any lesion or change in the physical structure of the body causing damage or harm thereto that is not transitory or minor AND occurred only by accident, intentional act of violence, or repetitive trauma.

Required Fees: Charges required by an institution to be paid by every student as a condition of enrollment. These do not include other charges associated with the student's academic program or living costs, such as program/lab/course fees, books, materials, living costs, optional expenses, etc.

Service-connected death or disability: The death or injury was directly caused by the servicemember's active military service. Death or injury happening while on active duty is not sufficient – the death or injury must have been a direct result of the servicemember's active-duty service, as shown by documentation provided with the application.

Servicemember: Any person who had active military service in any armed service branch of the United States military, and any person who had active state or federal service in the Kansas army or air national guard.

PLEASE NOTE: Individuals who are also using Chapter 33 Post-9/11 GI Bill benefits should carefully consider how the Hero's scholarship may affect those benefits. We encourage students to talk with their school's military-affiliated centers/staff about how to maximize all of their entitlements. Generally, when a Chapter 33 user receives other aid that is designated solely for tuition and fees (known as restricted aid), the VA's last payer clause states that VA will only pay any remaining tuition/required fees after restricted aid is applied. Because the Hero's scholarship is restricted aid that waives the entirety of an individual's undergraduate tuition and required fees for up to 10 semesters of undergraduate coursework, there is no tuition for the VA to pay when a student receives the Hero's scholarship. Students can still receive their Ch. 33 monthly housing allowance and book stipend, however, we encourage students to talk with their school's military-affiliated centers/staff about how to maximize all of their entitlements.
