Chair Frederick

VI. ADJOURNMENT

KANSAS POSTSECONDARY TECHNICAL EDUCATION AUTHORITY MEETING

A virtual meeting of the Kansas Postsecondary Technical Education Authority (TEA) was held via ZOOM on December 16, 2022.

Members Present

Ray Frederick Keith Humphrey
Debra Mikulka Mike Beene
Mike Johnson Curtis Sneden

Eddie Estes Rita Johnson

Others Present

Hutchinson Community College Kansas Association of Community College Trustees Manhattan Area Technical College

Kansas Board of Regents Staff Present

Scott SmathersLaura LeiteSue GrosdidierTobias WoodVera BrownTim PetersonEric TincherCindy FarrierCharmine ChambersMatt CaseyHector MartinezSteve FunkSusanna LeeSusan Henry

Elaine Frisbie

CALL TO ORDER

The meeting was called to order by Chair Frederick at 10:0A.M. Chair Frederick provided members with virtual meeting guidelines.

Approval of Minutes

Chair Frederick called for a motion to approve the minutes from the November 18, 2022 meeting.

Motion: Member Estes moved to approve the minutes of the November 18, 2022 meeting. Following a second by Member R. Johnson, the motion carried.

REPORTS

Introductions

Chair Frederick introduced new TEA member Curtis Sneden.

Chair's Report

Chair Frederick informed members that on December 8th he attended a meeting with Regent Cindy Lane in Topeka to share the TEA responsibilities and goals, as well as to discuss the TEA role in approving programs, program review, the alignment process, Excel in CTE programs and fees. On December 9th, he reported that he met with Senator Renee Erickson in Wichita, along with Vice President Smathers and Director Matt Casey, with similar discussions as were held with Regent Lane, but additionally, providing an update on the Extraordinary Costs discussions. On December 14th, he met with representatives from NC3 discussing the new partnership with the Russell, Kansas High School.

Member Liaison Reports

Chair Frederick asked if any TEA members had reports on their activities to share.

Member Estes commended the community and technical colleges on recent television commercials focusing on the upcoming semester. Chair Frederick asked Member Estes for an update on the status of the upcoming MidAmerica Workforce Summit, and Member Estes informed members there have been some challenges associated with the Summit affected by the pandemic that may result in the cancellation of the Summit, but he will keep members informed with a decision coming soon.

Member Mikulka commended community and technical colleges on prompt applications for the American Rescue Plan Act recovery funds and thanked the institutions for their efforts in making technical education in Kansas stronger.

Member Beene commented regarding the meeting of Chair Frederick and Regent Lane, asking for the most updated report from the Governor's Council on Education, on which Regent Lane is a member. Chair Frederick and Vice President Smathers responded that they would follow up on obtaining the current report for TEA members.

Vice President for Workforce Development Report

Chair Frederick called on Vice President Smathers to provide members with a Workforce Development report. Vice President Smathers informed members that if the Summit is cancelled, the TEA meeting that is scheduled on January 18th at the Summit, will be rescheduled to be held at the KBOR offices on January 26th, as there is a meeting of the Board on January 18th previously scheduled at the KBOR offices on January 18th. Vice President Smathers welcomed new TEA member Curtis Sneden. He reported that Board staff is working on Perkins and Adult Education federal reports which are due the January. He informed members that interviews are being held to hire an Associate Director, replacing Lisa Beck who retired in November, hoping to have a candidate selected in January. He informed members that he was invited to listen to a report from Butler Community College on student retention He reported that he and Adult Education Director Martinez met with the Department of Commerce broadband group, and that will also be meeting with the Governor's Education Council, along with Chair Frederick. He announced that the Board has approved two new TEA members to fill the vacancies due to the departure of Mike Johnson and Rita Johnson, whose terms were completed. He explained that David Reist, formally the President at Highland Community College before retiring, and Cindy Hoover, who is a Vice President for Spirit AeroSystems, will be joining the TEA at the January meeting. He reminded members that if they wish to attend the Mid America Workforce Summit on January 18th, please advise for registration.

Report from the Community Colleges

Chair Frederick called upon Hutchinson Community College President File to provide members with a report from the community colleges.

Report from the Technical Colleges

Chair Frederick called upon Manhattan Area Technical College President Genandt to provide members with a report from the technical colleges.

CONSENT AGENDA

Program and Curriculum Committee
Program Alignment
Machining and Manufacturing Technology (48.0501)

New Programs

North Central Kansas Technical College: Powersports Technology (47.0606) Northwest Kansas Technical College: Powersports Technology (47.0606) Washburn Institute of Technology: Early Childhood Education (19.0709)

Promise Act

Washburn Institute of Technology: Early Childhood Education (19.0709)

Excel in CTE Fees

Northwest Kansas Technical College: Powersports Technology (47.0606) Washburn Institute of Technology: Early Childhood Education (19.0709)

Chair Frederick called for a motion to approve the Consent Agenda items as submitted by the Technical Program and Curriculum Committee.

Motion: Member Beene moved to approve the Consent Agenda items as submitted by the Technical Program and Curriculum Committee. Following a second by Member M. Johnson, the motion carried by roll call vote. Member Mikulka abstained from the vote.

OTHER MATTERS

Legislative Update

Chair Frederick called on Director Casey to provide members with a legislative update. Director Casey gave a brief report to members on the recent activities of the Legislature. Director Casey shared that the House of Representatives leadership elections have concluded and provided members with the leadership results for various legislative positions, including Speaker of the House, Speaker Pro Tem, Minority Leader, Budget Chairs, and positions for key committees including the Education Committee. He informed members that the non-budgetary list of items for this coming session have been approved, including some of the budget provisos. He added that the Affiliation bill was pulled from the agenda pending discussions with the community and technical colleges. Director Casey reported that Legislators will be working on the budget and on a tax plan, shifting focus from new initiatives and one-time funding to directing payments to KPERS and saving funds in anticipation of smaller revenues in the future.

Build Something Now Promotion

Chair Frederick called on Senior Project Director Peterson to provide members with information on the <u>Build Something Now</u> promotion. Senior Project Director Peterson gave a brief recap of the <u>Build Something Now</u> campaign which was produced to help increase the awareness of Kansas CTE programs across the state. He explained that it began in 2020, broadcast via numerous cable networks, streaming venues, online display ads, an online search engine, and a CTE landing page, with links to the Board website. He added it was then updated to include the Promise Act Scholarship and is running from August of 2022 through January 2023. He provided members with the statistical successes of this outreach campaign and informed members that updated versions of the CTE outreach campaign may be run on a routine basis.

Strada Grant Presentation

Senior Project Director Peterson shared a PowerPoint presentation showcasing the Kansas Micro-Internships (KMI) program, providing background on the program, supportive data, program features and goals, student success stories and future for growing program participation in Kansas. He informed members that grant funding was awarded from The DeBruce Foundation in Kansas City, as well as a \$400,000 grant by the Strada Education Network, to further expand the program. He informed members that four community colleges and three technical colleges will participate in the first year of the Strada KMI Workplace Learning grant to engage their respective students and local employers more fully with

the program. He added the grant also includes funding for a marketing campaign and for the other Kansas community and technical colleges to participate in the second year of the project, utilizing the program as a recruiting device and matching Kansas students with Kansas employers and keeping talent in Kansas.

KTIP Portal

Chair Frederick called on Associate Director Chambers provide members with information on the Academic Year 2021 Kansas Training Information Program new portal format for review of updated reporting prepared by Board Staff, Data, Research and Planning Team. She gave a brief overview of the data included, and a brief tour of the portal navigation.

Departing TEA Member Recognition

Chair Frederick thanked departing TEA members Mike Johnson and Rita Johnson for their service acknowledging that this was their last TEA meeting.

NEXT MEETING REMINDER

Chair Frederick reminded members that the next regularly scheduled TEA meeting will be in-person at the Mid America Workforce Summit at the Hotel Topeka at City Center on January 18, 2023 at 10:00 A.M. He informed members that in the event the Summit is cancelled due to unforeseen circumstances, the TEA will meet in-person at the KBOR offices on the alternative date January 26, 2023, beginning at 10:00 A.M.

ADJOURNMENT

With no further business, Chair Frederick adjourned the meeting at 11:28 A.M.

Respectfully submitted by:

Susan Henry, Executive Assistant

Program Realignment – Heating, Ventilation, Air Conditioning (HVAC)

Summary

One of the initiatives underway by the Postsecondary Technical Education Authority to enhance technical education in the state is the alignment of specific technical programs. Program Alignment has four primary objectives: allow business and industry to identify exit points within the program; identify nationally recognized third-party credentials; identify common courses; and decrease the variability in program length. 1/26/2023

Background

One of the strategic priorities of the Postsecondary Technical Education Authority (TEA) is to enhance technical education in our state by the alignment of specific technical programs. This project is driven by the needs of business and industry in the state. Program Alignment consists of five phases:

- Phase I: Research and industry engagement
- Phase II: Faculty engagement and aligning curriculum with certifications
- Phase III: Approval of program structure and curriculum
- Phase IV: Implementation
- Phase V: Standards revision

Phase V: Standards Revision: Heating, Ventilation, Air Conditioning (HVAC) (47.0201)

The HVAC program was last realigned in 2013. Two exit points were established (Certificate B, an AAS) with six common courses.

Review of the alignment began in response to faculty contacting KBOR requesting to discuss the need for realignment. A survey was sent to the relevant business and industry community to gauge the need for program realignment. The survey also requested interest in serving on the business and industry (B&I) committee. Twenty-one business members completed the survey with ten agreeing to be on the B&I committee.

HVAC program administrators and faculty from thirteen institutions, five businesses, Kansas Department of Education staff, and KBOR staff met virtually on November 2, 2022, to begin the realignment process.

The committee agreed to retain the existing name; however, agreed that institutions could edit the name to include "refrigeration" and/or "climate and energy control" depending on local B&I recommendations. The acronym "HVAC" should be included in the title.

The committee recommended including the Technical Certificate A exit point as a non-credentialed exit point, which would allow students to obtain sufficient knowledge for entry level employment. The Technical Certificate A would require all Common and Support Courses. The committee recommended the program having a choice of a Technical Certificate B or Technical Certificate C as the next exit point. This would allow students to obtain enough training to sit for industry certifications through Industry Competency Exam (ICE), North American Technician Excellence (NATE), HVAC Excellence, or the National Center for Construction Education and Research (NCCER).

The committee then focused on courses required within the program. All the existing required courses within the program remained; however, some were moved from Common Courses to Support Courses (Electrical Fundamentals, Workplace Skills, and Safety Orientation/OSHA 10 or 30) to allow more flexibility for colleges using similar courses in other technical programs.

The attached proposed alignment map, reflecting the final recommendations from the combined faculty and B&I committee, was issued for presidential comment from November 30, 2022, to December 14,

2022, during which one comment was received from Dr. Utash with Wichita State University Campus of Applied Sciences and Technology (WSU Tech). The comment stated that WSU Tech is still working with a group of HVAC faculty to crosswalk the NC3 certifications for this alignment. Once this group has finalized their review, the HVAC faculty committee will be brought back together for further discussion.

Recommendation

The proposed revisions to the HVAC program realignment have been reviewed by the Technical Education Authority's Program and Curriculum Committee and are recommended for approval.

Heating Ventilation Air Conditioning (HVAC) CIP: 47.0201 Program Alignment – Kansas Board of Regents

2022

HVAC - Level 1

- OSHA 10 or 30
- EPA 608
- Courses: all support and common (13-16 hours)

Certificate A 16-29 Credit Hours

HVAC-Level 2

- Certificate A requirements plus
- Entry Level Credential in one of the following (see page 2):
 - ICE (Industry Competency Exam)
 - NATE (North American Technician Excellence)
 - HVAC Excellence

Common Courses

• NCCER (National Center for Construction Education and Research)

Certificate B30-44 Credit Hours

OR

Certificate C 45-59 Credit Hours

HVAC Degree

- Certificate B or C Requirements
- Minimum of 15 Credit Hours of General Education

A.A.S. Maximum of 68 Credit Hours

Required Courses within Program

8 credits:

HVAC Fundamentals	4 credits
Heating System Fundamentals	3 credits
EPA 608	1 credit
Support Courses	5-8 credits:
Electrical Fundamentals	3-4 credits
Workplace Skills	1 credit
Safety Orientation/OSHA 10 or 30	1-3 credits

Notes

Specifics pertaining to HVAC programs:

- 1. Title must include HVAC; however, may also include:
 - Refrigeration and/or
 - Climate and Energy Control
- 2. Course list sequence has no implication on course scheduling by colleges.
- 3. Institutions may add additional competencies based on local demand.

Certificate B or C

Institutions may choose one of the following four credentialing options:

ICE – Completion of one of the following Credential options:

- Residential: CORE plus at least one speciality Air Conditioning, Air Distribution, Heat Pumps, Gas Furnaces, or Oil Furnaces.
- Light Commercial including Air Conditioning and Heating including, Start-up Heating, Start-up Air Conditioning, Service Heating, Refrigerant Recovery, and Installation.
- Commercial including System Design, Installation Start-up, Preventative Maintenance, and Service & Repair.

OR

NATE - Credential Core Areas + a minimum of one specialty area in Installation or Service which may include:

- Air Conditioning
- Air Distribution
- Air-to-Air Heat Pumps
- Gas Heating (Air)
- Oil Heating (Air)
- Hydronics Gas
- Hydronics Oil
- Light Commercial Refrigeration
- Commercial Refrigeration

OR

HVAC Excellence – Credential Core Areas (Electrical & Refrigeration Theory) + minimum of one of the following areas:

Air Conditioning, Gas Heat, & Electrical

- Light Commercial Air Conditioning, Gas Heat, & Electrical
- Light Commercial Refrigeration & Electrical

OR

NCCER - Credential Core Areas + Completion of Level 1 & 2 Competencies

A.A.S.

Institutions may add an HVAC A.A.S. degree (maximum of 68 credits) that requires completion of the requirements for a Certificate B OR C AND requires a minimum of 15 Credit Hours of General Education.

Act on requests for degree and/or certificate programs submitted from community colleges and technical colleges

Summary

The Board office received requests from Garden City Community College to offer a Technical Certificate B and an Associate of Applied Science degree in Robotics and Mechatronics Technology, and from Washburn Institute of Technology to offer a Technical Certificate A in Advanced Emergency Medical Technician.

The programs addressed all criteria requested and were subject to the 10-day comment period required by Board policy. The programs were reviewed by staff and are presented for review and discussion by the Technical Education Authority's Program and Curriculum Committee.

1/26/2023

Background

Community and technical colleges submit requests for new certificate and degree programs utilizing forms approved by Board staff. Criteria addressed during the application process include, but are not limited to, the following: program description, demand for the program, duplication of existing programs, faculty, costs and funding, and program approval at the institution level.

Description of Proposed Programs:

Garden City Community College (GCCC) requests approval of the following program:

• Robotics and Mechatronics Technology (15.0405) – Technical Certificate B/36 credit hours, and Associate of Applied Science/65 credit hours

According to the U.S. Department of Education, Classification of Instructional Programs (CIP Code) 15.0405 Robotics Technology/Technician is a program that prepares individuals to apply basic engineering principles and technical skills in support of engineers and other professionals engaged in developing and using robots. Curriculum should include instruction in the principles of robotics, design and operational testing, system maintenance and repair procedures, robot computer systems and control language, specific system types and applications to specific industrial tasks, and report preparation.

Cross-walking the proposed CIP Code (15.0405 Robotics Technology/Technician) to occupations resulted in a match to one Standard Occupation Classification code (SOC): 17-3024 Electro-Mechanical and Mechatronics Technologists and Technicians, which is defined as an occupation in which one would operate, test, maintain, or adjust unmanned, automated, servomechanical, or electromechanical equipment. Individuals may operate unmanned submarines, aircraft, or other equipment to observe or record visual information at sites such as oil rigs, crop fields, buildings, or for similar infrastructure, deep ocean exploration, or hazardous waste removal, and may assist engineers in testing and designing robotics equipment.

GCCC explained that in 2020 the college applied for and received funding for a Title III grant through the United States Department of Education. The purpose of the grant is to support STEM education, specifically in underserved racial/ethnic populations. This grant supports the creation of three new high-need programs, including this application for a Robotics and Mechatronics Technology program. The new programs seek to increase the number of Hispanic and low-income students earning STEM degrees.

The proposed program consists of two exit points: a 36-credit hour Certificate B, and a 65-credit hour Associate of Applied Science. No accreditation is required for the program, and upon completion, students will sit for nationally recognized certifications through the Smart Automation Certification Alliance (SACA) including C103 Certified Industry 4.0 Associate III – Robot Systems Operation, C-358 Autonomous Mobile Robot Systems I, and C-363 Machine Vision Systems I.

The Kansas Department of Labor Long-term Occupation Projections 2020-2030 indicates small-cell suppressed data for the occupation Electro-Mechanical Technicians under SOC 17-3024. An Associate's degree is listed as the typical education needed for entry.

GCCC explained that the most recent Comprehensive Regional Needs Assessment completed in February 2022 indicates that "schools in the region desire to provide students with 'advanced' skills to allow them opportunities beyond entry-level work." (p 11). Local food manufacturers are interested in this program because their existing industrial processes all involve highly mechanized, automated, computer-based, and web-connected processing systems. This program serves as a bridge between the mechanized worlds and the worlds of computer-enabled, web-based production controls—jobs that employers attest exist in the area. empirical Foods, for example, is a technology-based company that specializes in ground beef production, empirical is building a plant in Garden City that will employ over 500 people from the region, and many of those employees will need to be trained in areas such as robotics, mechatronics, electronics, and more.

Lightcast (previously Emsi-Burning Glass) job posting analytics show that from November 2021 through November 2022, roughly 1,218 total postings (334 unique postings) were advertised statewide, with an annual median advertised salary of \$44,200.

Three letters of industry support for the proposed program were received from the Dairy Farmers of America, empirical foods, and the Sunflower Electric Power Corporation. Supports and commitments for the program include serving on the advisory board, faculty professional development, providing guest speakers, and interviewing graduates. USD 457 Garden City Public Schools provided a letter of support for the program.

Currently, one institution offers a similar program based on CIP Code. Below are the colleges, programs, total number of concentrators, total number of graduates, total number of graduates exiting the higher education system and employed, and average wage of graduates who exited the higher education system and are employed information from the 2021 K-TIP report.

	Kansas Training Information Program									
	2021 K-TIP Data for Robotics Technology/Technician									
CIP Code	Program Name	Institution	Total # Concentrators	Total # Graduates	Total # Graduates Exited & Employed	Average Wage: Graduates Exited & Employed				
15.0405	Robotics Technology/Technician	Wichita State University Campus of Applied Sciences and Technology	16	*	*	*				
Total			16							

(*) small cell protection applied

GCCC explained that as the only technical institution in Kansas to offer a Robotics Technology program, representatives from WSU Campus of Applied Sciences and Technology provided support to Garden City Community College by offering advice on program development. WSU Tech also provided a tour of the labs and equipment they use in their robotics program. Since the Wichita area has a strong aviation sector, while Southwest Kansas has food production and agriculture, the use of robotics technology is relevant in both sectors. This also provides a complementary collaboration where each institution has a different industry with similar skills sets within their geographic range.

The college plans to begin the proposed program in the fall of 2023 and estimates the initial cost of the proposed program at approximately \$112,796.18 total, including \$54,505 for existing full-time faculty, \$39,024 for equipment, and \$19,267 for technology/software. Funding will be provided from the Title III HSI STEM Grant. Chuck Pfeifer, Dean of Technical Education and Workforce Development, will assume responsibility for the proposed program.

The proposed program was subject to the 10-day comment period from December 15, 2022, to December 29, 2022, during which no formal comments were received.

Recommendation

The new program request submitted by Garden City Community College for a Technical Certificate B for 36 credit hours and an Associate of Applied Science for 65 credit hours in Robotics and Mechatronics Technology has been reviewed by the Technical Education Authority's Program and Curriculum Committee and is recommended for approval.

Washburn Institute of Technology (WIT) requests approval of the following program:

Advanced Emergency Medical Technician (51.0904) – Technical Certificate A/20 credit hours

According to the U.S. Department of Education, Classification of Instructional Programs (CIP Code) 51.0904 Emergency Medical Technology/Technician (EMT Paramedic) is a program that prepares individuals, under the remote supervision of physicians, to recognize, assess, and manage medical emergencies in prehospital settings and to supervise Ambulance personnel. Curriculum should include instruction in basic, intermediate, and advanced EMT procedures; emergency surgical procedures; medical triage; rescue operations; crisis scene management and personnel supervision; equipment operation and maintenance; patient stabilization, monitoring, and care; drug administration; identification and preliminary diagnosis of diseases and injuries; communication and computer operations; basic anatomy, physiology, pathology, and toxicology; and professional standards and regulations.

Cross-walking the proposed CIP Code (51.0904 Emergency Medical Technology/Technician (EMT Paramedic)) to occupations resulted in a match to one Standard Occupation Classification code (SOC): 29-2042 Emergency Medical Technicians, (SOC recently changed to 29-2040) which is defined as an occupation in which one would assess injuries and illnesses and administer basic emergency medical care. Individuals may transport injured or sick persons to medical facilities.

WIT explained that Washburn University Institute of Technology has offered the Emergency Medical Technician (EMT) certificate for many years. Advanced EMT is one level above EMT and has been requested by community partners. Area EMS agencies have AEMT positions posted and are utilizing AEMTs to fill the void of the Paramedic shortage. Local independent services offer the AEMT course occasionally but limit it to their department staff only. WIT explained that no local educational institution is offering this course to their community partners at large.

The proposed program consists of a single exit point: a 20-credit hour Technical Certificate A. Accreditation is required for the program through the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP). Upon completion, students will sit for the Advanced Emergency Medical Technician (AEMT) certification.

The Kansas Department of Labor Long-term Occupation Projections 2020-2030 indicates a statewide change of employment for Emergency Medical Technicians and Paramedics under SOC 29-2040 of .8% annually, with an annual median wage of \$29,443. A Postsecondary non-degree award is listed as the typical education needed for entry. Annual openings equate to 200 jobs per year.

WIT explained that the Perkins Local Needs Assessment data currently show a shortage of program concentrators for CIP Code 51.0904, and JobsEQ job posting analytics show a need for the occupation.

Lightcast (previously Emsi-Burning Glass) job posting analytics show that from November 2021 through November 2022, roughly 2,035 total postings (739 unique postings) were advertised statewide, with an annual median advertised salary of \$39,300.

Three letters of industry support for the proposed program were received from the Topeka Fire Department, Franklin County EMS, and Stormont Vail Health. Supports and commitments for the program include serving on the advisory board, providing a site for field rides, and interviewing graduates. Santa Fe Trail High School provided a letter of support for the program.

Currently, nine institutions offer a similar program based on CIP Code. Below are the colleges, programs, total number of concentrators, total number of graduates, total number of graduates exiting the higher education system and employed, and average wage of graduates who exited the higher education system and are employed information from the 2021 K-TIP report.

Kansas Training Information Program								
	2021 K-TIP Data	for Emergency Medical Tec	chnology/Technic	ian (EMT Par	ramedic)			
CIP Code	Program Name	Institution	Total # Concentrators	Total # Graduates	Total # Graduates Exited & Employed	Average Wage: Graduates Exited & Employed		
51.0904	Emergency Medical Technology/Technician (EMT Paramedic)	Barton Community College	34	13	10	\$56,937		
51.0904	Emergency Medical Technology/Technician (EMT Paramedic)	Butler Community College (approved for AY2024 start)	NA	NA	NA	NA

51.0904	Emergency Medical Technology/Technician (EMT Paramedic)	Wichita State University Campus of Applied Sciences and Technology	*	*	*	*		
Total			194	63	52			

^(*) small cell protection applied

WIT indicated that collaboration was not pursued. The college plans to begin the proposed program in the fall of 2023 and estimates the initial cost of the proposed program at approximately \$39,500 total, including \$17,000 for one new, part-time faculty, \$12,000 for equipment, tools, and supplies, \$2,000 for instructional materials, \$5,000 for facility modifications and renovations and \$3,500 for technology/software. Funding will be provided from the institution general funds, including re-allocation from discontinued programs, and Perkins funding. Pam Masters, Director of Health Occupations, will assume responsibility for the proposed program.

The proposed program was subject to the 10-day comment period from December 15, 2022, to December 29, 2022, during which no formal comments were received.

Recommendation

The new program request submitted by Washburn Institute of Technology for a Technical Certificate A for 20 credit hours in Advanced Emergency Medical Technician has been reviewed by the Technical Education Authority's Program and Curriculum Committee and is recommended for approval.

Act on programs eligible for the Kansas Promise Scholarship Act

Summary

The Kansas Legislature enacted the Kansas Promise Scholarship Act (Promise Scholarship) which provides scholarships for students to attend an eligible postsecondary education institution. Eligible programs would be any two-year associate degree program, career and technical education certificate, or stand-alone program that corresponds to high wage, high demand, or critical need in:

- four specified fields of study (information technology and security; mental and physical healthcare; advanced manufacturing and building trades; and early childhood education and development);
- one college designated field of study from the specified list (Agriculture; Food and Natural Resources; Education and Training; Law, Public Safety, Corrections, and Security; or Distribution and Logistics);
- Transfer programs with an established 2+2 and/or articulation agreements.

1/26/2023

Background

On May 23, 2022, Governor Kelly signed 2022 Senate Substitute for House Bill 2567, which adopted changes in the Kansas Promise Scholarship Act. The Act also maintains that the Board of Regents will administer the program. Administration is broken into three categories: Rules and Regulations, Eligible Programs, and Other Responsibilities.

The Kansas Postsecondary Technical Education Authority is delegated the approval of eligible programs. Per statutory language (section 28), a "promise eligible program" means any two-year associate degree program or career and technical education certificate or stand-alone program offered by an eligible postsecondary educational institution that is:

- a) approved by the Board of Regents;
- b) high wage, high demand or critical need; and
- c) identified by the Board of Regents pursuant to K.S.A. 2021 Supp. 74-32,272:
 - Information Technology and Security
 - Mental and Physical Healthcare
 - Advanced Manufacturing and Building Trades
 - Early Childhood Education and Development

Section 30 states an eligible postsecondary educational institution may designate an additional field of study to meet local employment needs if the promise eligible programs within this field are two-year associate degree programs, career and technical education certificates, or stand-alone programs approved by the Board of Regents that correspond to jobs that are high wage, high demand, or critical need in the community from one of the following fields:

- Agriculture;
- Food and Natural Resources:
- Education and Training;
- Law, Public Safety, Corrections, and Security; or
- Distribution and Logistics

Section 29 (9d) states that the Board of Regents may designate an associate degree transfer program as an eligible program only if such program is included in:

- a) An established 2+2 agreement with a Kansas four-year postsecondary education institution; or
- b) An articulation agreement with a Kansas four-year postsecondary educational institution and is part of an established degree pathway that allows a student to transfer at least 60 credit hours from the eligible postsecondary educational institution to a four-year postsecondary education institution for the completion of an additional 60 credit hours toward a bachelor's degree.

Recommendation

The following programs are seeking approval to become Promise Eligible programs. The programs have been reviewed by the Technical Education Authority's Program and Curriculum Committee and are recommended for approval:

- Garden City Community College: Robotics and Mechatronics Technology (15.0405) falls under the Advanced Manufacturing and Building Trades category specified in legislation.
- Washburn University Institute of Technology: Advanced Emergency Medical Technician (51.0904)
 falls under the Mental and Physical Healthcare category specified in legislation.

Excel in Career Technical Education (CTE) Fees

Summary

Per statute (K.S.A. 72-3810), the Kansas Board of Regents shall establish general guidelines for tuition and fee schedules in career technical education courses and programs. The Excel in CTE tuition and fee schedule of every technical education program shall be subject to annual approval.

1/26/2023

Background

K.S.A 72-3810 states:

"All tuition and fees charged for career technical education by any board shall be in such amounts as are authorized by rules and regulations adopted by the state board which shall establish general guidelines for tuition and fee schedules in career technical education courses and programs. The tuition and fee schedule of every career technical education program shall be subject to annual approval of the state board. A current complete schedule of tuition and fees for each career technical education course and program of each board as approved by the state board shall be maintained on file in the office of the state board and shall be open for public inspection at any reasonable time."

"Fees means those charges assessed against a student by a community college, technical college or the institute of technology for student services, such as health clinics, athletic activities and technology services, or for books, supplies or other materials necessary for a particular course or program, the expense of which is not covered by tuition."

"Tuition means those charges assessed against a student by a community college, technical college or the institute of technology on a per credit hour, per course or per term basis, and that are charged to cover the general expense of providing instructional services."

As per the request of the Postsecondary Technical Education Authority (TEA), on Thursday, December 19, 2019, representatives from community colleges, technical colleges, and Board staff met to set guidelines for fees associated with Excel in CTE courses and programs. As a result of this meeting, agreed-upon allowable fees include items/services students take with them and industry-specific fees required for entrance/acceptance into the program.

Allowable fees include:

- Uniforms
- Personal protective equipment
- Background checks
- Fingerprints
- Drug tests
- E-subscriptions/E-books
- Textbooks
- Certification tests
- Liability insurance (example: student malpractice)
- Graduation fees (if applicable)
- Transcript fees (if applicable)
- Student software licenses
- Professional equipment/kits/tools

<u>Unallowable fees include:</u>

- Student fees (general)
- Technology fees
- Health fees
- Consumable project materials
- Program or institution application fees
- Lab fees
- Rental fees such as those for tools, books, or uniforms/gear
- Student kits
- Accuplacer or other placement tests
- Student ID
- Student organization memberships (such as Skills USA)
- Any other fee not on the allowable list

<u>Non-tiered courses</u> - per statute (K.S.A. 71-1802) a technical program is defined as a "program of study comprised of a sequence of tiered technical courses and non-tiered courses, which is identified by the state board as a technical program for funding purposes." For this reason, students enrolled in technical programs may take non-tiered courses and are responsible for all associated tuition and fees.

Recommendation

The Excel in CTE fees below have been reviewed by the Kansas Postsecondary Technical Education Authority's Program and Curriculum Committee and are recommended for approval:

• Washburn Institute of Technology: Advanced Emergency Medical Technician total \$1,018. Fees include \$114 for Verified Credentials, \$311 for examinations, \$200 for a tool kit, \$55 for PPE, and \$338 for a textbook.

KBOR Excel in CTE Fee Summary for Proposed Academic Programs CA-1b Form (2020)

Per statute (K.S.A. 72-3810), the Kansas Board of Regents shall establish general guidelines for tuition and fee schedules in career technical education courses and programs. The Excel in CTE tuition and fee schedule of every technical education program shall be subject to annual approval.

Please include all costs charged to high school students for the proposed new program.

Legislative Update

Summary

The Technical Education Authority (TEA) will receive a brief legislative update.

1/26/2022

Intent

Director Matt Casey will provide the TEA with a legislative update.

Perkins V Grant Overview

Summary

The Strengthening Career and Technical Education for the 21st Century Act (Perkins V) is the primary federal funding source to states for the improvement of secondary and postsecondary career and technical education programs. The purpose of the Act is to develop more fully the academic, career, and technical skills of secondary and postsecondary students who elect to enroll in career and technical education programs.

1/26/2022

Background

Originally passed as the Vocational Education Act of 1963, The Strengthening Career and Technical Education for the 21st Century Act (Perkins V) was reauthorized in 2018 to increase learner access to high-quality career and technical education (CTE) programs of study. Perkins V specifically addresses students in special populations, which includes students who had been underserved in the past or who may have substantial education needs.

Goals

The Perkins V Kansas State Plan for CTE identifies the following goals:

- 1. Engage employers into Pathway/program planning, implementation, and review
- 2. Provide high-quality, affordable, accessible, and equitable CTE for all learners (including special populations)
- 3. Supply efficient academic integration
- 4. Implement effective work-based learning
- 5. Further align Pathways and programs

Funding

For FY2023, Kansas received \$12,458,848, which is split evenly between secondary (KSDE) and postsecondary (KBOR).

According to the Perkins V law, postsecondary Perkins funding is subject to the following breakdown:

- 85% Pass through to eligible recipients
 - o 85% Local Grants formula-based allocation
 - o 15% Reserve Fund competitive grants
- 10% State Leadership Fund
- 5% State Administration

Local Grants

Over \$4.5 million was allocated to twenty-six eligible postsecondary institutions based on full-time equivalent earned by Pell recipients in CTE programs. Funds must be used to develop, coordinate, implement, or improve CTE programs to meet the needs identified in the local comprehensive needs assessment and the institution's Perkins 4-year plan.

FY23 Recipients:

Barton Community College	\$106,166
Butler Community College	\$180,349
Cloud County Community College	\$72,850
Coffeyville Community College	\$112,829
Colby Community College	\$108,387
Cowley Community College	\$151,476
Dodge City Community College	\$45,309
Flint Hills Technical College	\$143,036

Fort Scott Community College	\$136,817
Garden City Community College	\$143,480
Highland Community College	\$104,834
Hutchinson Community College	\$375,802
Independence Community College	\$27,985
Johnson County Community College	\$339,377
Kansas City Kansas Community College	\$396,680
Labette Community College	\$85,288
Manhattan Area Technical College	\$104,834
Neosho County Community College	\$73,739
North Central Kansas Technical College	\$265,193
Northwest Kansas Technical College	\$221,661
Pittsburg State University	\$51,084
Pratt Community College	\$107,055
Salina Area Technical College	\$106,610
Seward County Community College	\$103,057
Washburn University & Washburn Institute of Technology	\$244,760
Wichita State University Campus of Applied Sciences and Technology	\$720,953

Reserve Funds

Eligible recipients can apply for the Reserve funds to foster innovation or promote the development, implementation, and adoption of programs of study aligned with state-identified high skill, high-wage, or indemand occupations and industries. The following two Reserve Grants were made available to local recipients in FY23:

Special Population Support

The focus of the Special Population Support grant is to address the needs of special populations and underserved groups of students by providing equipment and resources for the classrooms with high concentration of students in special populations. These groups include but are not limited to English language learners; students with disabilities; racial and ethnic minorities; individuals from economically disadvantaged families; individuals preparing for non-traditional fields; single parents; out-of-workforce individuals; homeless individuals; youth who are in, or have aged out of, the foster care system; and youth with a parent who is a member of the armed forces and is on active duty.

FY23 Recipients:

Cowley Community College	Classroom tools for Machine Technology, Non- Destructive Technology, and Welding.	\$65,370
Johnson County Community College	Classroom sets of stethoscopes, blood pressure cuffs, pen lights, and shears for the LPN program.	\$20,676
Northwest Kansas Technical College	Classroom technology bundles for Computer Graphics Technology and Cloud & Crypto Computing.	\$48,699
Seward Community College	Classroom tools and personal protective equipment for Automotive Collision & Refinishing, Automotive Technology, HVAC, and Diesel Technology.	\$80,503
Washburn Institute of Technology	Classroom sets of stethoscopes and sphygmomanometers for the LPN program. Classroom tools and PPE for Automotive Technology and Welding.	\$47,345
Wichita State University Campus of Applied Sciences and Technology	English Language Learner equipment and resources for the LPN and Welding programs. Blind and visually impaired equipment for Culinary Arts.	\$120,000
	Total	\$382,563

Kansas Industry and Labor Force Expansion Grant

The focus of the Industry and Labor Force Expansion grant is to address the needs of Kansas employers by growing programs which prepare skilled workforce. Each applicant must identify a new (example: Panasonic, Scorpion, etc.) or growing Kansas employer(s) who would benefit from skilled workers in a specific occupation. Likewise, if a new Kansas employer pulls workforce from one part of the state, employers may have to replenish the workforce in another.

FY23 Recipients:

1 123 Recipionis.		
Barton Community College	Increase capacity for Associate Degree in Nursing and Practical Nursing satellite programs in Pratt to supply workforce for Pratt Regional Medical Center, KU Health Systems, Kiowa County Memorial Hospital, Haviland Care Center, Medicine Lodge, Stafford County and Pratt County Health Departments.	\$111,596
Fort Scott Community College	Increase Welding capacity at the Southeast KS CTE Center in Pittsburg and supply workforce for Doherty Steel, Unique Metals Fabrication Inc., Niece Equipment, Min-America Pipe, Twister Trailers, AZZ Enclosure Systems, RFT Fabrication, etc.	\$45,478
Independence Community College	Provide industry-standard equipment in Veterinary Nursing to support Heartland Vet Partners: Blue Pearl Pet Hospital and Mission Vet System.	\$53,890
Johnson County Community College	Increase capacity in the Automation Engineer Technology program to meet labor demands from the new Panasonic location in De Soto.	\$116,179
Kansas City KS Community College	Increase capacity in the Automation Engineer Technology, Electrical, and Welding programs to meet labor demands from the new Panasonic location in De Soto.	\$76,209
Manhattan Area Technical College	Increase capacity in Welding to meet the demands of Landoll, Caterpillar, Great Plains, Cimarron Trailers, and Local Union #2.	\$178,207
Northwest Kansas Technical College	Provide industry-standard equipment for the Electrical program to support Davis Electric Inc.	\$97,502
Washburn University	Increase capacity in Diagnostic Medical Sonography to meet local labor demands at KUMC – St. Francis, Sabetha Hospital, Hiawatha Hospital, Holton Hospital, etc. Purchase up-to-date equipment for Automotive Technology to meet the needs of Laird Noller, Briggs Topeka, Goodyear, John Hoffer Chrysler Jeep Inc., and Jiffy Lube.	\$37,810
Wichita State University Campus of Applied Sciences and Technology	Increase capacity in Carpentry and provide new equipment to meet the labor force needs of Crain Company 3D. Purchase industry-standard equipment for Veterinary Nursing to support the workforce needs of Veterinary Emergency and Specialty Hospital of Wichita.	\$224,257
	Total	\$941,128

State Leadership

KBOR staff must conduct leadership activities to improve CTE including support for the following:

• preparation for non-traditional fields in current and emerging professions, programs for special populations, and other activities that expose students, including special populations, to high-skill,

- high-wage, and in-demand
- individuals in State institutions, such as State correctional institutions, including juvenile justice facilities, and educational institutions that serve individuals with disabilities;
- recruiting, preparing, or retaining career and technical education teachers, faculty, specialized
 instructional support personnel, or paraprofessionals, such as preservice, professional development, or
 leadership development
- technical assistance for eligible recipients

To meet these requirements, the following state-wide activities have been implemented:

- "Build Something Now" state-wide CTE outreach Campaign
- Non-Traditional Careers state-wide training in Salina, KS provided by the Kansas Center for Career and Technical Education (KCCTE)
- Corrections Grant to support CTE in correctional facilities across the state
- Support for faculty taking advantage of professional development opportunities provided by the Kansas Council for Workforce Education and KCCTE
- Integrating Academics and CTE grants
- Performance Targets Achievement Incentive grant
- On-going training and technical assistance to institutions provided by the Board staff

State Administration

KBOR staff must provide administration of the State plan including developing the State plan, review local applications, monitoring and evaluating program effectiveness, assuring compliance with all applicable federal laws, providing technical assistance, and support and developing data systems.

Federal Reporting

Under the Perkins V legislation, eligible agencies are required to efficiently and effectively meet annual reporting requirements of the Consolidated Annual Report (CAR). The CAR for the most recently completed program year is due on January 31 of the following year. Postsecondary performance in the last three years is included in the tables below.

	Academic Year 2020	Academic Year 2021	Academic Year 2022
Postsecondary	34346	33078	42067
Participants			
Postsecondary	29915	26187	30441
Concentrators			

Kansas Performance

	Academic Y	Year 2020	Academic	Year 2021	Academic Y	Year 2022
	Target	Actual	Target	Actual	Target	Actual
Post-program Placement	Data no availa	•	63.7%	92.3%	63.7%	93.0%
Credentialing and Degrees	Data no availa	•	59.5%	80.0%	59.5%	82.38
Students in non- traditional fields (based on gender)	Data no availa		6.3%	9.0%	6.3%	10.95%

Adult Education Overview

Summary

Adult Education and Family Literacy in Kansas is administered by the Board of Regents and the TEA. Adult Education's primary focus is to educate people who are no longer in high school and help them earn their high school degree, learn English, and/or earn a college degree or industry certification. 1/26/2023

Background

The Adult Education and Family Literacy Act is Title II of the Workforce Innovation and Opportunity Act (WIOA), which was signed into law in 2014, replacing the Workforce Investment Act of 1998 and taking effect with a new State Plan in 2015. Every two years, the plan is updated to reflect new policies, practices, and innovations and is submitted by the core partners (Kansas Board of Regents, Kansas Department of Commerce and the Kansas Department for Children and Families, Vocational Rehabilitation Services) to their respective federal agencies. The last updated plans were submitted and accepted in 2022.

Adult Education is designed to provide services to individuals 16 years of age and older who are no longer in school, with or without a High School Diploma, who lack basic skills and are looking to pursue higher education, enter a technical career, and/or join the workforce.

In Kansas, there are about 157,000 residents over 25 years of age who do not have high-school diplomas, over 40 percent of whom completed less than the 9th grade. Another 35,000 Kansas residents aged 18 to 24 do not have a high-school diploma. Additionally, about 52,000 Kansas adults describe themselves as having limited proficiency in English.

Adult Education is administered through the Workforce Development Unit of the Kansas Board of Regents, and Adult Education providers offer the following activities:

- Adult Education and Literacy
- Workplace Adult Education and Literacy
- Family Literacy Activities
- English Language Acquisition Activities
- Integrated English Literacy and Civics Education Activities
- Workforce Preparation Activities
- Integrated Education and Training Activities

The Adult Education programs are funded by \$4.35 million from the federal Adult Education and Family Literacy Act and about \$1.46 million in state funds. Kansas Adult Education programs are consistently national leaders in the accountability measures mandated by the federal Department of Education.

The Adult Education Funding formula allocates state and federal funds, as follows: **Base Funding** (30% of total funds)

Performance Based Funding (70% of total funds)

Excel in Career Technical Education (CTE) Fees

Summary

Per statute (K.S.A. 72-3810), the Kansas Board of Regents shall establish general guidelines for tuition and fee schedules in career technical education courses and programs. The Excel in CTE tuition and fee schedule of every technical education program shall be subject to annual approval.

1/26/2023

Background

K.S.A 72-3810 states:

"All tuition and fees charged for career technical education by any board shall be in such amounts as are authorized by rules and regulations adopted by the state board which shall establish general guidelines for tuition and fee schedules in career technical education courses and programs. The tuition and fee schedule of every career technical education program shall be subject to annual approval of the state board. A current complete schedule of tuition and fees for each career technical education course and program of each board as approved by the state board shall be maintained on file in the office of the state board and shall be open for public inspection at any reasonable time."

"Fees means those charges assessed against a student by a community college, technical college or the institute of technology for student services, such as health clinics, athletic activities and technology services, or for books, supplies or other materials necessary for a particular course or program, the expense of which is not covered by tuition."

"Tuition means those charges assessed against a student by a community college, technical college or the institute of technology on a per credit hour, per course or per term basis, and that are charged to cover the general expense of providing instructional services."

As per the request of the Postsecondary Technical Education Authority (TEA), on Thursday, December 19, 2019, representatives from community colleges, technical colleges, and Board staff met to set guidelines for fees associated with Excel in CTE courses and programs. As a result of this meeting, agreed-upon allowable fees include items/services students take with them and industry-specific fees required for entrance/acceptance into the program.

Allowable fees include:

- Uniforms
- Personal protective equipment
- Background checks
- Fingerprints
- Drug tests
- E-subscriptions/E-books
- Textbooks
- Certification tests
- Liability insurance (example: student malpractice)
- Graduation fees (if applicable)
- Transcript fees (if applicable)
- Student software licenses
- Professional equipment/kits/tools

Unallowable fees include:

- Student fees (general)
- Technology fees
- Health fees
- Consumable project materials
- Program or institution application fees
- Lab fees
- Rental fees such as those for tools, books, or uniforms/gear
- Student Kits
- Accuplacer or other placement tests
- Student ID
- Student organization memberships (such as Skills USA)
- Any other fee not on the allowable list

Non-tiered courses - per statute (K.S.A. 71-1802) a technical program is defined as a "program of study comprised of a sequence of tiered technical courses and non-tiered courses, which is identified by the state board as a technical program for funding purposes." For this reason, students enrolled in technical programs may take non-tiered courses and are responsible for all associated tuition and fees.

The Academic Year 2024 annual review of Excel in CTE Fees will cover all changes in fees charged and all additional fees for each institution. To expedite the TEA review, the first spreadsheet presents only the changes submitted by each institution for AY2024 Excel in CTE Fees. The second spreadsheet includes an institution-level comparison of AY2023 approved fees to the AY2024 changes (which includes any reduction in fees charged, or removal of fees) by program.

Fees listed represent original fees submitted for approval via the KHEDS data system and for new programs
= institution offers program, submitted Excel in CTE fees, however fees were only for elective coursework so total costs could not be calculated
^^^ = Institution offers program, previously offered to high school students, and did not submit Excel in CTE fees for this exit point (or may have chosen for AY2024 to
no longer offer the program to high school students)

Promise Act Update

Summary

The Technical Education Authority (TEA) will receive an update on the Promise Act.

1/26/2023

Intent

Vice President Scott Smathers will provide the TEA with a Promise Act update.
