REPORT FROM THE TECHNICAL COLLEGES

President Eric Burks, North Central Kansas Technical College, presented a report for the technical colleges. President Burks reported the Governor's CTE initiative (2012 SB 155) has brought positive attention to technical education and has highlighted the need for technical skills

in the Kansas workforce. However, the technical colleges are concerned about sustaining the program if additional funding is not appropriated. President Burks noted the technical colleges are asking their individual boards and industry partners to formally support additional funding for full implementation of SB 155. Additionally, President Burks reported the technical colleges believe the transfer and articulation taskforce has made tremendous progress.

#### LEGISLATIVE UPDATE

Mary Jane Stankiewicz, Director of Government Relations and Communications, gave an update on the upcoming higher education legislative bus tour, which starts Tuesday, October 22. Ms. Stankiewicz stated the universities and Board staff answered the 81 questions that the Legislature submitted. She reviewed the system overview which gives information on earnings and unemployment rates by educational attainment, state appropriations per full-time student equivalent, average tuition in Kansas compared to neighboring states, and number of degrees and certificates awarded.

(System Overview filed with Official Minutes)

#### STATE AUTHORIZATION RECIPROCITY AGREEMENT (SARA)

Vice President Alexander stated last month the Board heard a report on the State Authorization Reciprocity Agreement (SARA) initiative. He stated the Board has three options with regard to the SARA initiative: 1) elect not to join, 2) elect to join now, or 3) defer the decision to a later date. If the Board elects not to join SARA, the current laws and regulations for out-of-state institutions wanting to offer programs in Kansas and Kansas institutions wanting to offer programs outside the state remains the same. If the Board elects to join SARA now, revisions to Kansas statutes and relevant regulations will need to be made. Deferring the decision to a later date will have the same outcome as not joining but it may impact the Board's ability to significantly influence further development of the SARA initiative if it is not an active member. The Board discussed the potential fiscal impact on the state universities and Board office, the lack of program review, and the impact of potential statutory changes. Several of the Regents expressed concerns about not knowing what the terms of the agreement are going to be. Vice President Alexander stated the final agreement will be reviewed and possibly approved by the Midwestern Higher Education Compact (MHEC) at its November 2013 meeting. The agreement will be shared with the Board once it is available. Regents also expressed concerns that if the Board waits, the Board might not be able to participate in any further developments of the SARA initiative. After further discussion, the Board directed the Board Academic Affairs Standing Committee to review the SARA document, once it is available, and make a recommendation on whether the Board should move forward with statutory changes.

#### BREAK

Chairman Logan called for a break at 10:50 a.m. and resumed the meeting at 11:05 a.m.

#### COLLEGE ATTAINMENT GOAL

One of the Board's goals this year is to pursue its strategic goal of increasing educational attainment in Kansas by increasing, to 60 percent, the number of resident adults having a

credential or degree by 2020. Last month Dennis Jones, President of National Center for Higher Education Management Systems (NCHEMS), presented a tool that can be used to identify the Kansas credential/degree gap. President Tompkins demonstrated the tool and stated it will take multiple initiatives to reach the 60 percent goal. He discussed the potential of reverse transfer and the impact of the Accelerating Opportunity: Kansas (AO-K) grant. Other possible paths for reaching 60 percent include transforming developmental education and focusing on minority/underserved populations. President Tompkins noted that funding is also important to achieving the goal.
