Revised 05/05/2017

First Aid and CPR – KRSN HSC 1040 CORE OUTCOMES

Course Approval Date: Summer 2017 Course Review Date: Summer 2022

Core Student Learning Outcomes: *4-6 specific, measurable learning outcomes expected of every student that completes the course. Only student outcomes are included in this report.*

Upon completion of this course, students will be able to:

1. Recognize an emergency, assess the scene and develop an appropriate plan of action.
2. Demonstrate the knowledge and skills necessary to provide emergency assistance in cases such as choking, rescue breathing, CPR and use of AED for adults, children, and infants.
3. Demonstrate and explain how to provide care for life-threatening emergencies including breathing, shock, head and spinal injuries, sudden illness, stroke, soft tissues and musculoskeletal injuries.
4. Identify and describe how to respond effectively to a variety of environmental, man-made and/or national security emergencies.
