

# **KANSAS CHALLENGE TO SECONDARY SCHOOL STUDENTS ACT**

February 2022

# **KANSAS CHALLENGE TO SECONDARY SCHOOL STUDENTS ACT**

The 2021 Legislature enacted House Bill 2134, creating the Kansas Challenge to Secondary School Students Act, the “Kansas Challenge Act.”

## **PURPOSE OF THE PROGRAM**

2021 House Bill 2134 states that the purpose of the Kansas Challenge Act is to provide the means to school districts to encourage secondary students take advantage of all educational opportunities in Kansas.

## **STUDENTS**

The bill amends the definition of “student” in the Kansas Challenge Act to require a student to have an individualized plan of study or an individualized education program. Within the Act, students are defined as someone who:

- Is enrolled in grades 10, 11, or 12 in a school district, or a gifted student enrolled in grades 9, 10, 11, or 12;
- Has an individualized plan of study or an individualized education program;
- Has demonstrated the ability to benefit from participation in the regular curricula of a postsecondary institution;
- Has been authorized by the student’s principal to apply for enrollment at a postsecondary institution; and
- Is acceptable or has been accepted for enrollment at a postsecondary educational institution.

### **Foster Care Students**

HB 2134 expands the Kansas Foster Child Educational Assistance program to provide a tuition waiver for foster care students who are concurrently or dually enrolled in a postsecondary institution. In addition, school districts are authorized to pay for any costs that are not waived, including for fees, books, materials, and equipment. The definition of “eligible foster child” is amended to add a student, as defined by provisions of this bill, who has been in the custody of the Secretary for Children and Families and in foster care placement at any time the child was enrolled in grades 9 through 12.

## **SCHOOL DISTRICTS**

### **Cost of Attendance**

The bill allows school districts, at the discretion of the local boards of education, to pay for tuition, fees, books, materials, and equipment for any high school student who is concurrently or dually enrolled at a postsecondary educational institution. The bill authorizes a local board of education to pay all or a portion of those costs directly to the

postsecondary institution by the school district. Students or their families are required to pay any portion of the costs not covered by the school district. School districts are also authorized to provide transportation for concurrently or dually enrolled students.

### **Academic Credit**

The bill requires postsecondary institutions to notify a student or a student's parent or guardian if the course in which a student is enrolled is not eligible for a systemwide transfer of college credit to another in-state postsecondary educational institution, as determined by the Board of Regents. The bill requires school districts to grant high school credit to concurrently or dually enrolled students who satisfactorily complete course work at a postsecondary institution.

In order to remain eligible for participation, the bill requires students to remain in good standing at the postsecondary institution in which they are enrolled or show satisfactory progress as determined by their school district.

### **Excel in CTE**

The Kansas Challenge Act does not apply to technical education courses that are part of the Excel in Career Technical Education program (also known as 2012 SB 155 courses) administered by the Board of Regents. Through this program, Kansas high school students qualify for state-funded college tuition in approved technical courses offered by Kansas technical and community colleges.

## **INSTITUTIONS**

The bill amends the definition of "accredited independent institution" in the Kansas Challenge Act to include only not-for-profit postsecondary institutions and to specify the institution must be accredited by a nationally recognized accrediting agency.

## **DATA COLLECTION**

In the Fall of 2021, the Board of Regents began the process of determining the data elements to be gathered from postsecondary institutions in order to fulfill the Board's obligation to report to the Legislature in February 2022. In this first year of the Act, this first report can cover only the Fall semester of 2021.

The Act requires each postsecondary institution that accepts students for concurrent or dual enrollment to submit a report to the Board, and that report must include, at a minimum, the following:

- (1) the number of students from each school district enrolled in the eligible postsecondary educational institution, including the number of students in the custody of the secretary for children and families;

- (2) the number of students who successfully complete the courses in which such students are enrolled at the eligible postsecondary educational institution;
- (3) the tuition rate charged for students compared to the tuition rate charged to individuals who are regularly enrolled and attending the eligible postsecondary educational institution; and
- (4) the amount and percentage of tuition each school district is paying pursuant to K.S.A. 72-3223, and amendments thereto.

In this first report, the students who will successfully complete their courses could not be reported, for lack of elapsed time. This will be included in subsequent reports.

There were some limitations on what the institutions were able to report with regard to how high school students' cost of attendance were financed. The information provided was assembled and is attached to this report.

## **GLOSSARY OF TERMS**

**CEP:** A Concurrent Enrollment Partnership or CEP student refers to a person in grades 10, 11 or 12, or who is gifted and is in grade 9; has been admitted to an eligible postsecondary education institution as a degree-seeking or non-degree seeking student; and is enrolled in college courses at a high school at which approved high school faculty teach college credit courses during the normal school day.

**Dual-Enrolled Students:** A high school student is considered to be dual enrolled who, in addition to taking a regular high school curriculum, is also enrolled in college level courses at a postsecondary institution.

**KHEDS:** Kansas Higher Education Data System. In response to the Kansas Higher Education Coordination Act, the Kansas Board of Regents developed the Kansas Postsecondary Database (KSPSD) to collect student data. KHEDS supports informed decision-making through the collection, analysis, and reporting of postsecondary education data in Kansas. KHEDS includes several collections including the Academic Year Collection, Fall Preliminary Enrollment Collection, Fall Census Day Collection (FA), and Follow up Collection (SU).

- Indicates the institution reported no data.

^ Indicates a cell has been marked for small-cell protection.

Note: All Institutions reporting district payments affirmed no district payments were distributed to students in the custody of the Secretary for Children and Families.

\*For Public Institutions, this is calculated based on institution submissions of high school tuition for CEP and dually enrolled students reported in KHEDS AY 2021. For Independent Institutions, unless otherwise noted, per credit hour charge for part-time undergraduate students as reported in the IPEDS Institutional Characteristics survey component.

\*\*Independent institution publishes a special tuition rate for high school or dual credit students on their institutional websites and the links can be made available upon request.
