Specifics pertaining to Industrial Machine Mechanic programs:

1. Graduates will take and are expected to earn the Certified Maintenance and Reliability Technician (CMRT) certification through the Society for Maintenance and Reliability Professionals Certifying Organization (SMRP).

2. Educational Competencies align with CMRT requirements.

3. The common course may represent opportunities for colleges to connect to K-12 CTE pathways.

4. Level C certificates that do not include any general education course and lead to the AAS degree cannot be greater than 53 credit hours to maintain the 68 credit hour maximum for the AAS degree.

5. Students are encouraged to obtain the Kansas WORKReady! Certificate (Silver-Level).
