What Is CAEL?

• Council for Adult and Experiential Learning

• A 501(c)3 non-profit, international organization with 40 years of experience

• Dedicated to removing barriers to adult learning:
  “Meaningful Learning, Credentials, and Work for Every Adult”
Prior Learning Assessment (PLA) is a process for evaluating knowledge and skills in order to award college credit for learning from:

- On-the-job learning
- Corporate training
- Independent study
- Military service
- Volunteer service
Methods of Assessment

Four Approaches to PLA
1. Evaluated non-college programs
2. Standardized exams
3. Institutional challenge exams
4. Individualized assessments
CAEL Research on PLA

*Fueling the Race to Postsecondary Success: A 48-Institution Study of PLA and Adult Student Outcomes, 2010*

- N=62,475 adult students
- PLA usage and academic outcomes

*http://www.cael.org/pdfs/PLA_Fueling-the-Race*
Graduation and Completion

![Bar chart showing graduation and completion rates.]

- **Did not earn degree or credential**
  - 78% (Did not earn PLA credit, n=46,881)
  - 44% (Earned PLA credit, n=15,594)

- **Other**
  - 1% (Did not earn PLA credit, n=46,881)
  - 0% (Earned PLA credit, n=15,594)

- **Earned Bachelor's Degree**
  - 15% (Did not earn PLA credit, n=46,881)
  - 43% (Earned PLA credit, n=15,594)

- **Earned Associate's Degree**
  - 6% (Did not earn PLA credit, n=46,881)
  - 13% (Earned PLA credit, n=15,594)
PLA students in this study had better graduation rates than non-PLA students:

- regardless of institutional size, level (two-year or four-year) or control (private for-profit, non-profit, or public)
- regardless of the individual student’s academic ability or grade point average
- regardless of the individual student’s age, gender, or race/ethnicity
- regardless of whether or not the individual student receives financial aid
Summary of Persistence Findings

PLA students have higher rates of persistence compared with non-PLA students.

- In terms of credit accumulation and progress towards the degree
- In terms of number of years of credit-earning
The institution evaluates all the credit that it transcripts, including what it awards for experiential learning or other forms of prior learning.
Assessing Learning: Standards, Principles, & Procedures (2nd ed)

by Fiddler, Marienau & Whitaker

CAEL

2006
Credit or its equivalent should be awarded only for learning, and not for experience.
Standard #1

“Credit for life experience”

“Credit for work experience”
Reference to HLC:
“…experiential learning or other forms of prior learning”
Standard #2

Assessment should be based on standards and criteria for the level of acceptable learning that are both agreed upon and made public.
What is college-level learning?
The institution makes readily available to students and the general public clear and complete information including:

- policies on acceptance of transfer credit, including how credit is applied to degree requirements. (Except for courses articulated through transfer policies or institutional agreements, the institution makes no promises to prospective students regarding the acceptance of credit awarded by examination, credit for prior learning, or credit transfer until an evaluation has been conducted.)
Standard #3

Assessment should be treated as an integral part of learning, not separate from it, and should be based on an understanding of learning processes.
Some of the Values of PLA

- Motivates adults
- Validates adult learning
- Contributes to the institution and the community, as well as to the individual student
- Transforms thinking
Standard #3

Students submit a stack (hard copy or electronic) of certificates, job descriptions, work samples, resumes, and/or evaluations
Standard #4

The determination of credit awards and competence levels must be made by appropriate subject matter and academic or credentialing experts.
Institutional faculty or credentialed adjunct faculty evaluate prior learning
Standard #4

PLA advisor evaluates all portfolio submissions
Credit or other credentialing should be appropriate to the context in which it is awarded and accepted.
Will the credit for prior learning apply to the degree plan?
Is the level of prior learning consistent with college-level learning?
Is the content of prior learning consistent with the institutional offerings?
Is the assessment method appropriate to the learning outcomes?
Standard #6

If awards are for credit, transcript entries should clearly describe what learning is being recognized and should be monitored to avoid giving credit twice for the same learning.
Standard #6

- Involve the registrar in planning for PLA
- Avoid duplication of credit
- Permit data collection and analysis
- Clarify area of learning
Standard #7

Policies, procedures, and criteria applied to assessment, including provision for appeal, should be fully disclosed and prominently available for all parties involved in the assessment process.
Processes are consistent with institution’s other academic policies
Fees charged for assessment should be based on the services performed in the process and not determined by the amount of credit awarded.
Standard #8

- Why is this standard important?
- Is this the practice at your institution?
- How are assessment fees determined?
Standard #9

All personnel involved in the assessment of learning should pursue and receive adequate training and continued professional development for the functions they perform.
Standard #9

- PLA policies in academic handbook but lapsed
- No consistent rubric for individual assessments
- No collegial discussions about PLA
- PLA “owned” by only a few on the campus
Standard #10

Assessment programs should be regularly monitored, reviewed, evaluated, and revised as needed to reflect changes in the needs being served, the purposes being met, and the state of the assessment arts.
What is a reasonable schedule for review?
What can we learn from other institutions and states about their PLA policies and practices?
Are there additional stakeholders to be included in discussions?
Questions about the Quality Standards?

- Quick access to the standards
  
  http://www.cael.org/Whom-We-Serve/Colleges-and-Universities/Prior-Learning-Assessment-Services

- Questions about the 10 standards?

- Other questions about ensuring academic quality?

- Other questions about PLA?
