

KANSAS BOARD OF REGENTS
Math Faculty Professional Development
NOTES
September 6th, 2024 – 2:00 – 4:00 p.m.

The September 6, 2024, Math Faculty Professional Development meeting was called to order by Whitney Turner at 2:00 p.m. The meeting was held via zoom conference.

MEMBERS PRESENT: 29 of 32 institutions were represented. A list of attendees is provided on page two.

WELCOME & INTRODUCTIONS

The meeting began with brief introductions from the co-chairs, Whitney Turner (JCCC) and Dr. Connie Richardson (Dana Center).

COREQUISITE DEVELOPMENT: POLICY REVIEW & INSTITUTIONAL DECISIONS

KBOR staff members, Dr. Jennifer Bonds-Raacke and Sam Christy-Dangermond, also provided brief introductions before transitioning into their presentation, which can be found on the [KBOR website](#).

COREQUISITE DEVELOPMENT SUPPORT MODELS & BEST PRACTICES

Whitney Turner provided the next presentation on best practices for corequisite developmental support models, also available on the [KBOR website](#).

KSU SPOTLIGHT: MERGING COREQUISITE DEVELOPMENTAL MODELS

Gabe Kerr provided the final presentation over the corequisite model currently being developed at KSU. This presentation can be found on the [KBOR website](#).

Q&A

Bethany Chandler inquired if KSU planned to offer corequisite support online. Gabe Kerr replied that his institution currently prefers in-person support. Stephanie Joiner then raised a question about partnering with Adult Education to assist students who might not be ready for a gateway course with corequisite support. JBR and Whitney Turner indicated that a discussion on multiple placement measures, including this concern, will be forthcoming. Jean Swillum expressed concerns about the logistics of corequisite support at smaller institutions. In response, Connie Richardson mentioned that some institutions address this by dividing corequisite support between the fall and spring semesters.

BREAKOUT ROOMS

After the presentations, attendees chose from breakout rooms dedicated to each of the three gateway math courses. Following these sessions, leaders from each breakout room provided summaries:

- Gabe Kerr reported that the College Algebra group discussed their current implementations and noted the importance of enrollment caps on corequisites at many institutions.
- Sarah Cook shared that the Contemporary Math (Quantitative Reasoning) group also reviewed their current implementations. She mentioned that Marla Byrne from Johnson County Community College is available for anyone interested in learning more about soft skills support.
- Whitney Turner reported that the Elementary Statistics group discussed how they will be constructing a course for a more general population. The conversation centered on less computation and more interpretation.

ANNOUNCEMENTS

Whitney Turner directed participants to the [Math Pathways FAQs](#) link on the KBOR website. She also noted that the next meeting will be held on September 27th from 2-4 p.m. Additionally, she encouraged attendees to email her with any topics of interest they would like to be covered in future sessions.

ADJOURNMENT

Whitney Turner adjourned the meeting at 4 p.m. and gave another reminder about the next session on Sept. 27th. JBR added that registration for the next session will be open on Monday, Sept. 9th.
