

Question

- 1 Where can we learn more about the frustration discomfort scale?
- 2 For clarification, will the Elementary Algebra be removed from the sequence moving forward? How are you changing your current corequisite course to support its removal?
- 3 Connie - Do you have a link to those stat/coreq calendar and planning documents? I think our statistics team might like to look at them.

Response

Additional information about the scale can be found in these articles: Harrington, N. (2005a). The Frustration Discomfort Scale: Development and psychometric properties. *Clinical Psychology and Psychotherapy*, 12(5), 374-378. AND Harrington, N. (2005b). It's too difficult! Frustration intolerance beliefs and procrastination. *Personality and Individual Differences*, 39(5), 873-883.

Elementary Algebra will be removed from the sequence moving forward, and the current corequisite will offer additional supports and content when combined with the gateway course.

Yes. The PDF of these documents will be available on the website in the Q&A section for this session.
