# 2023 Cohort Summary of AP Examination Scores Reported to Kansas Board of Regents: Public Four-Year Institutions

## Data Notes

The following characteristics represented in this summary are reported by students during exam registration:

- Exam taker origin (In-State, Out-of-State, Non-US)
- Gender
- Parent education level

Because of rounding, sums of percentages may not equal 100 percent.

### 1. Who is represented in this report?

This report includes public and private high school students in the US and abroad who indicated 2023 as their graduation year and who sent AP exam scores to your institution(s) between March 1, 2023 and October 31, 2023 (in their graduating year). The report includes all AP Exams taken by this population during high school. Students may have selected your institution(s) as a score recipient during their exam registration, or they may have requested a transcript to be sent to your institution(s) at a later date.

### Why did we include only these students?

Our analysis shows that students who send AP exam scores to an institution between March 1 and October 31 and enroll at a campus in fall of their high school graduation year have more than a 90% likelihood of matriculating at that institution. Our aim was to align our data as closely as possible with students who are actually enrolled at your institution(s). For this reason, we have not included students who only sent scores to your institution(s) outside this period of time.

2. Pie charts and score distributions are excluded for categories with fewer than 5 students to maintain the confidentiality of students' personal information. Dashes ( — ) denote categories that are not reported because they do not meet the minimum student count requirements.

3. Total Cohort includes all public and private high school students in the US and abroad who indicated 2023 as their graduation year and who took an AP Exam at any point during high school.

### 4. AP Exam scores are provided on a five-point scale:

The knowledge and skills criteria for earning a score of 1-5 are derived from standard setting and college comparability studies. As part of this process, committees of college faculty who teach the comparable college course detail the performance required to earn each score.

Additional college comparability studies are conducted on campuses to inform the cut scores for the exams. These processes ensure that AP Exam outcomes align with college faculty expectations. For more information about AP Exam score setting, please visit:

<https://apcentral.collegeboard.org/courses/how-ap-develops-courses-and-exams/score-setting-and-scoring>

5. The College Board and the American Council on Education (ACE) recommend granting credit/placement for AP Exam scores of 3, 4, and 5. Research also correlates these scores to academic success and opportunity; students earning a 3 or higher on an AP Exam tend to earn higher GPAs and to graduate within 4-5 years at a higher rate than non-AP students. For more information about credit granting recommendations, please visit

<https://apcentral.collegeboard.org/about-ap/higher-education/setting-credit-placement-policy/credit-granting-recommendations>

6. The "In-State", "Out-of-State" and "Non-US" designations are based upon where a student tested in relation to your institution.

7. "Low-income" exam takers received a College Board fee reduction for at least one AP Exam.

8. "Parent Education Level" represents the highest education level reported by students for either parent. Some of the categories listed on the chart are composites of the parent education levels selected by students during exam registration, as follows:

"No High School Diploma" includes "grade school" and "some high school."

"High School Diploma" includes "high school diploma or equivalent," "business or trade school," and "some college." "Bachelor's Degree" includes "bachelor's or four-year degree" and "some graduate or professional school."

### **Data Notes**

11. Note the following regarding abbreviations of the race/ethnicity reporting categories:

**Hispanic:** Includes all students who self-identified as Cuban; Mexican; Puerto Rican; or Another Hispanic, Latino, or Latin American on the ethnicity portion of the race/ethnicity questionnaire. In accordance with federal guidelines, students who identify as both “Hispanic/Latino” and one of the above races are reported as “Hispanic/Latino” on this report. Students reported as “Two or more races” are non-Hispanic.

**Traditionally Underrepresented:** Includes all students who provided a response to the race/ethnicity questionnaire and indicated a racial/ethnic group other than White; Asian; or two or more races, White and Asian, or who received a College Board fee reduction for exams taken at any point during high school.
