MAPCCS/KAPCCS Mission Statement

The Missouri and Kansas Association of Private and Career Colleges and Schools is a professional organization dedicated to providing quality training for students to become successful employees in business and industry. The association also strives to foster goodwill between industry and proprietary education by instilling a feeling of pride, integrity, and high ethical standards in the performance of job duties, and by also encouraging positive attitudes toward personal, business, and social interactions in our students. Our colleges and schools provide students with environments that encourage community and business involvement in the educational and solution-seeking processes, and provide students opportunities for personal growth and leadership development. Students are encouraged to "complete the cycle" by gaining job skills through education, and then returning those skills to our communities.

MAPCCS/KAPCCS Mission Statement

- * Providing quality education & training
