

KANSAS ADULT LEARNER GRANT

This service obligation scholarship program was enacted to assist adult residents of Kansas aged 25 years and older in the pursuit of a bachelor's degree in certain high-demand fields. Students may study in-person or online at any Kansas four-year public university, independent college or university, or Washburn University; or any not-for-profit institution operating outside of Kansas which is nationally accredited and offers a qualifying online competency-based program (such as Western Governor's University). In exchange for receiving grant funding, the recipient agrees to graduate from their degree program within 48 months of accepting the grant and then commence living and working in the state of Kansas for two consecutive years.

Only certain fields of study are eligible for the Adult Learner Grant. The specified high wage, high demand, critical need fields are:

- 1) information technology and security;
- 2) healthcare and nursing;
- 3) science, engineering, aerospace and advanced manufacturing;
- 4) education, early childhood education and development;
- 5) business, account and data analytics;
- 6) one additional field of study designated by the institution and identified as a high demand, high wage or critical need occupation.
